Committee Urges Airlift Improvement; Seeks More Tactical Lift For Army Units

(JCS Planning Criticized, Page 13)

THE Rivers House Armed Services Subcommittee, following two months investigation, has drafted 11 major recommendations to bolster the Nation's "seriously inadequate" military airlift.

One step would be to redesignate the Military Air Transport Service as the "Military Airlift Command." The possi-

bility of such a move was reported ex-
clusively in THE JOURNAL 2 April.

The Committee also urged "increased emphasis on the preparation of limited war plans, including the strategic military airlift requirements for the implementation of such plans," and improved tactical lift for the Army.

Chairman Rivers

Other recommendations, including those previously mentioned by Chairman L. Mendel Rivers (D-SC) in a preliminary report (THE JOURNAL, 16 April) call for:

- Development of a new, uncompromised turbine-powered cargo aircraft.
- Procurement of 100 "off-the-shelf"

Pentagon Fights For Pilot Slots

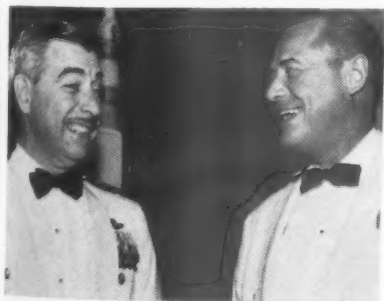

WITH the Air Force in the forefront of the drive, Pentagon leaders are seeking Senate reversal of House action which would cut 3,000 officers off flying status effective 1 July.

The Services say that this does not give them adequate time to react without adverse effects on combat effectiveness and without imposing hardships.

At present, the Services have 101,178

Missile Test Center

Chief Leaves For D. C.

NEWLY promoted Lt. Gen. Donald N. Yates, left, Commander of the Air Force Missile Test Center at Patrick AFB, Fla., since 1954, is shown at a farewell reception with Brig. Gen. William L. Rogers, Vice Commander. General Yates will be a Deputy to Dr. Herbert F. York, Director of Defense Research and Engineering.

Navy Counters ASW Centralization Plan; Hits At Admiral Rickover's Proposal

THE Navy opposes the proposal for a single manager system for antisubmarine warfare, advanced by VAdm. H. G. Rickover, Assistant Chief of the Bureau of Ships for Nuclear Propulsion.

Testifying before the House Appropriations Committee, he charged that the Navy's antisubmarine program, "from its inception in 1917, has been a hit-and-miss proposition, [with] different people coming in nearly every year. It never has been tackled as a major scientific problem. A group should be set up something

AN EDITORIAL SURVEY:

Project Man: A Big Score For The Army

FT. BENNING GA.

IN a month which has a Friday the 13th, the Army will be able to count May 1960 as one which nonetheless has been marked by good fortune for its future prospects as a result of actions on Capitol Hill and at the Infantry Center, here. In Washington, D. C., the House Appropriations Committee gave a favorable response to the pleas of Army leaders for increased modernization funds and an expanded military airlift. Here at the Infantry Center, the Army staged a brilliantly successful demonstration last week—it was called Project Man—before a top-echelon audience which included the unexpected participation of President Eisenhower and Secretary of Defense Gates.

No observer on the scene could be so inept a G-2 as to report that Project Man was arranged and presented without its anxious moments. Aside from the many

MILITARY DISABILITY:

Mental Disease Takes Top Toll

MENTAL disease is the top cause for physical disability retirements in the Navy and Air Force.

This is revealed in a JOURNAL survey, conducted with the help of Army, Navy and Air Force experts.

In the Army, mental disease ranks second to tuberculosis. Heart disease is a close third.

In the Navy and Air Force, tuberculosis ranks behind mental illness and heart trouble.

The study, presented in detail on page 3, reveals a sharp reduction in the number of disability retirements in the Army, Navy and Marine Corps, with a rise in such retirements among Air Force personnel.

like Admiral Raborn's, a permanent group with a specific job to do and necessary authority."

(Rear Admiral William F. Raborn as Chief of Special Projects is responsible for the Polaris program.)

Subsequent to Admiral Rickover's testimony, the Appropriations Committee increased the ASW budget \$28 million over the \$321 million requested by President Eisenhower (THE JOURNAL, 7 May).

The Committee also recommended im-
—Continued on page 10

THE BILL TO EQUALIZE RETIRED PAY was up for consideration by the House as The Journal went to press. Its passage seemed imminent, thus sending it to the Senate.

G-2 EXPERTS WARN OF COMMUNIST TACTICS

DURING the past week, at a time when preparations were being made for the Summit meetings and the Soviets were talking tough and acting rough, two senior Service officers with long G-2 experience delivered important addresses in Texas.

Lt. Gen. Arthur G. Trudeau, Army Chief of Research and Development and a former Assistant CofS G-2, said: "The trouble today is that the man in the street is too complacent and indifferent about the serious problems of Free World leadership and does not seem able to distinguish between promise and performance in terms of Communism—between its spoken words and its deeds."

RAdm. Laurence H. Frost, Assistant Chief of Naval Operations (Intelligence) declared: "Even those who must work professionally on this subject (Communist tactics) have to remind themselves continually to judge the Soviet leaders by what they actually mean—not by the phrases they use—and not by our standards of reasonable compromise, a mutual basis in confidence, or the traditional norms of Western society."

General Trudeau, speaking 7 May to the Texas Department of the Reserve Officer Association in El Paso, said: "America stands today at a critical moment of history—at a vital crossroad. We must either be prepared to defend ourselves, or stack arms for surrender. There is no other alternative."

Admiral Frost, addressing the Dallas Council of World Affairs, said on 6 May:

"Over the years, the peoples of the West have been rudely surprised by Soviet actions. Time and again, we have granted the benefit of the doubt and hoped that the future would be calm. Time and again, we have been disappointed."

"We must accept the fact—unpleasant as it is—that the future is going to be more challenging than ever," Admiral Frost continued. "We must look forward to a long period of Cold War—or protracted conflict—or so-called 'peaceful coexistence'—the name doesn't really matter. What is important is that as the Soviet Union grows stronger, it will grow in self confidence."

Air Force Revises Captain Promotion

(AF Officers Trail, Page 8)

THE Air Force has changed the criteria for temporary promotion selection to captain from time-in-grade to five years active Federal Commissioned Service as of 31 March 1960.

This follows similar action taken last year for promotions to temporary major and lieutenant colonel.

A selection board to choose on a "fully qualified" basis from among 6,104 lieutenants

Capt. Gebelin Will Head Service Squadron

Capt. Albert L. Gebelin has relieved Capt. Bennett M. Dodson as Commander Service Squadron One aboard the Flagship Jason.

Awarded the Silver Star for action at Normandy while Commanding Officer of the Destroyer Thompson, Captain Gebelin, USNA '34, transported Generals Eisenhower, Marshall, Arnold and Admiral King to the beach head in Normandy on D-plus-6.

Captain and Mrs. Gebelin, the former Betty Morgan of Long Beach, Calif., will reside in Coronado, Calif.

Captain Dodson, USNA '33, will be CofS to the Commander Service Force, Pacific Fleet.

Commander Service Squadron One is the Eastern Pacific representative of Commander Service Force, Pacific Fleet.

RAdm. Hirsch Nominated

President Eisenhower on 11 May nominated RAdm. Morris A. Hirsch to be Director of Budget and Reports for the Navy for a term of three years.

SAGE SALUTE

Maj. William H. Osborne has won the Air Force Commendation Medal for his work in developing radio communications in connection with the SAGE System for air defense of North America.

He is stationed at L. G. Hanscom Field as Associate Director of the Time Division Data Link Joint Test Force, testing electronic control and guidance systems for missiles and interceptors.

DCNO (AIR) SPEAKS:

Navy Will Depend "Heavily" on Planes

AWA NEWS CONFERENCE
LOS ANGELES, CALIF.

VADM. Robert B. Pirie, Deput. Chief of Naval Operations for Air, told the Aviation Writers Association here that the Navy will continue to depend "heavily" on modern combat aircraft whether war should be nuclear or conventional.

Admiral Pirie said the Navy believes it needs a total operating inventory of about 7,200 aircraft of all types. To keep the inventory at this level, he said, the Navy would have to procure about 1,200 aircraft yearly, but under the press of budget limitations it has been able to buy only about half of what it needs in recent years. This has been done, he explained, by concentrating on the combat category at the expense of other less mandatory programs.

"Even if there were a general nuclear war—which I don't think there will be," Admiral Pirie declared, "it seems to me very clear that the role of the manned military aircraft would remain tremendously and decisively important—even in the Space Age."

"Space is a means to an end—not an end in itself. Space vehicles will help us do some jobs on earth better than we've been able to do them before. But, certainly, the jobs on earth which need to be done won't change very much."

The Admiral added that this is particularly true insofar as naval warfare is concerned.

"I cannot visualize any aspect of naval operations—with the possible exception of Polaris submarine employment—in which the outcome will not continue to depend heavily upon the use of modern combat aircraft. It doesn't make any difference whether the war is nuclear or conventional."

Adjutant General Chief Gives Up His Gavel

MAJ. Gen. James F. Cantwell, right, New Jersey CofS, new President of the Adjutants General Association of the United States, receives the gavel from the outgoing President, Maj. Gen. Maxwell E. Rich of Utah. Looking on is Maj. Gen. William H. Harrison, Jr. of Massachusetts, President of the National Guard Association of the United States. General Cantwell moves up to President after serving two terms as Vice President.

His selection came at the close of the annual meeting of the Association last week at Asheville, N. C.

Other Officers elected were: Vice President, Maj. Gen. Heber L. Edwards, North Dakota, and Maj. Gen. Edward Heywood of Maine.

Elected to the Executive Committee were: Maj. Gen. Frank D. Pinckney, South Carolina; Maj. Gen. F. G. Reincke, Connecticut; Maj. Gen. J. B. Jolly, New Mexico.

computers that pace man's expanding mind

Mental Disease Tops Tuberculosis As Major Cause For Disability Retirements

MENTAL disease has eclipsed tuberculosis as the number one cause of disability retirements in the Armed Forces.

Heart disease is moving into second position, with tuberculosis destined for a number three position.

Latest statistics from the Services—many of them not officially published—indicate a steady rise in mental disorders as a cause for temporary and permanent retirement among career Air Force personnel. In the Navy mental disease is slightly ahead of heart disease as a retirement cause.

Incomplete Army statistics indicate there may be a decline in mental illness as a cause for disability retirement among personnel in that Service.

Tuberculosis, which was the major non-combat disabler in the early 1950's, is on the decline among all military personnel.

An exact comparison among the Services is difficult to arrive at. This is because of differing policies of disability retirement boards, lack of complete statistics and differing physical standards for retention.

There has been strong pressure in the Services to reduce the number of disability retirements. In the Army and Navy, there has been a drop in the number of personnel granted either temporary or permanent disability retirements.

Sharpest decline in the number of physical disability retirements has occurred in the Army, which reduced the number of physical disability retirements from 5143 in calendar year 1954 to 2009 in 1959.

The Navy and Marine Corps recorded 4567 disability retirements in 1954, and 2908 in 1959.

AF Retirements Rise

Only Service to increase the number of disability retirements in the 1954-59 period was the Air Force, which disability retired 2369 in 1954. This compares with 4213 in 1959.

It can be expected, however, that the next few years will see an increase in the number of disability retirements in all Services as the WWII "hump" group of officers and enlisted men become eligible for regular retirement based on length of Service.

Latest Air Force figures indicate that out of 4213 disability retirements of all types for calendar year 1959, there were 961 granted for psychotic disorders. An additional 85 disability retirements were granted for psychoneurotic disorders, and 32 for anxiety reactions.

One Out Of Four

This means that one of every four disability retirements in the Air Force during calendar year 1959 was granted for psychotic or psychiatric reasons.

The Navy and Marine Corps recorded 250 retirements for psychotic causes and 104 for psychoneuroses during calendar year 1959. During this year, one of every eight disability retirements in the Navy was for psychiatric or psychotic causes.

No current statistics are available from the Army, although unpublished figures indicate that one of every nine disability retirements in that Service during calendar year 1956 was for psychiatric reasons, and the general trend was toward the reduction in both the number and percentage of retirements for these causes.

Tuberculosis, which had been a primary non-combat disabler of military personnel, appears now to be in third place, although its exact position will not be known until complete Army statistics on both TB and heart disease are published.

In 1956, TB accounted for one of every five disability retirements in the Army, one out of every nine in the Navy and Marine Corps, and one out of every 4.5 in the Air Force. The number of TB cases was even higher in previous years.

A steady decline in TB among all Services has resulted in only one of every eight disability retirements being granted for this cause in the Army during calendar year 1958, and slightly over one of every nine in the Air Force during 1959. Navy statistics, which have

not yet been published, are expected to indicate one of every 10 disability retirements during 1959 was attributable to tuberculosis.

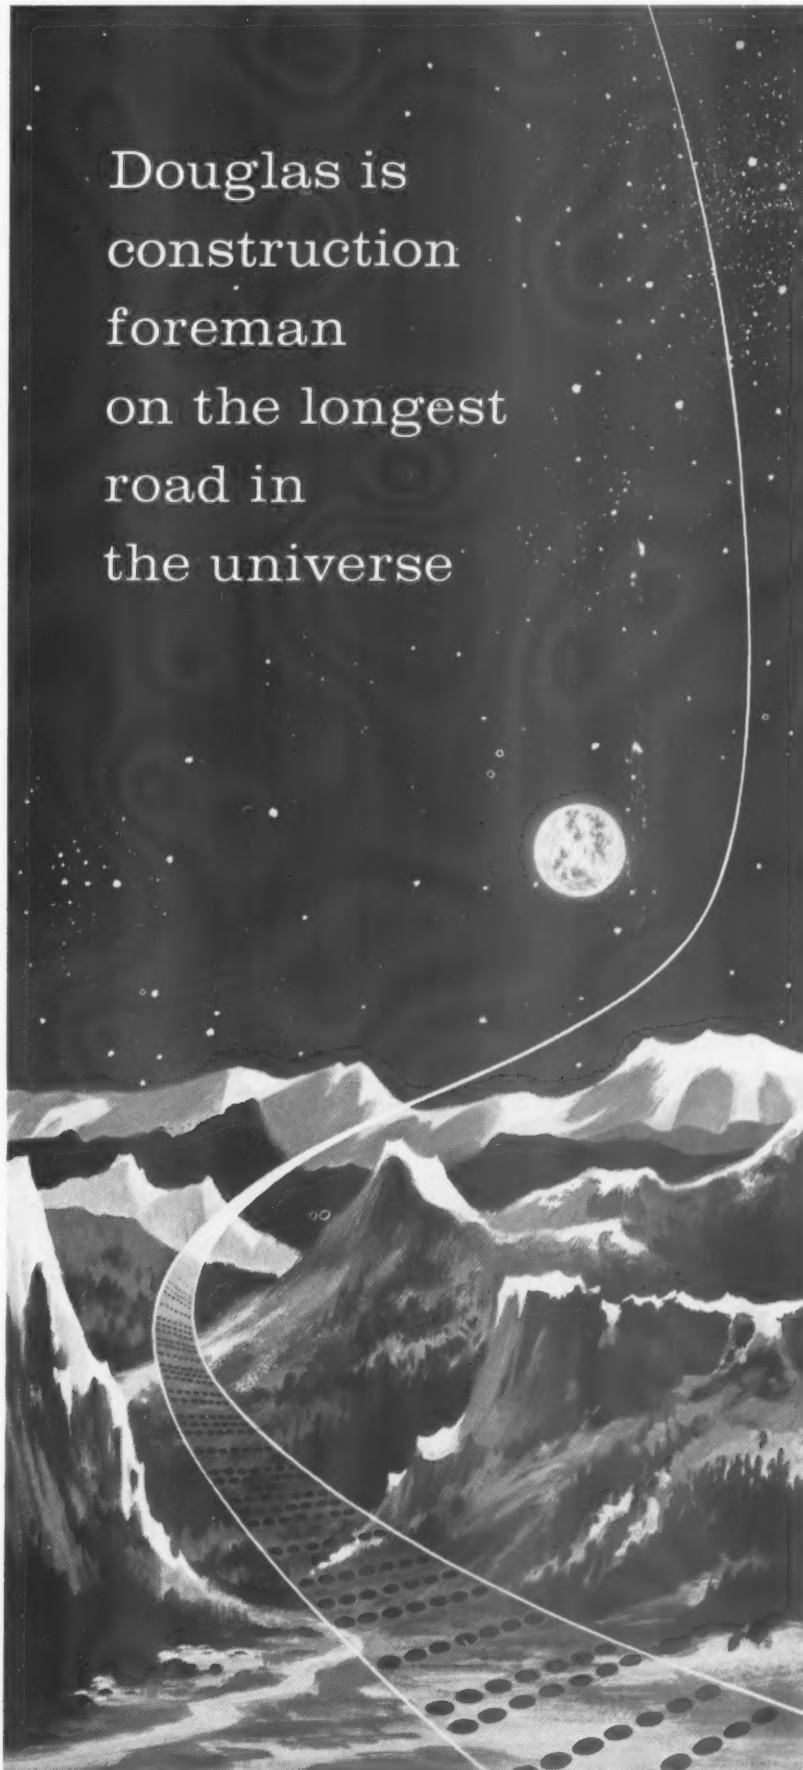

Heart trouble is the second place leader in disability retirements in the Navy and Air Force, although available statistics indicate this many not be so in the Army.

Unpublished Air Force records show that one of every nine persons retired for physical disability in that Service during calendar year 1959 had some type

of heart trouble. One of every eight Navy disability retirements is for heart disease of one type or another.

No up-to-date Army statistics on retirements for heart disease are available, but statistics available for 1953 through 1956 indicate a decline in disability retirements due to heart disease. In 1956, one of every 11 disability retirements in the Army was for heart trouble.

Cancer accounts for about four per cent of temporary and permanent disability retirements in all Services.

Revolutionary new "pathway" concept lets the operator "drive down the street" to anywhere—promises major civilian benefits

Six years ago, recognizing that development of advanced vehicles was outpacing man's ability to control them, the Military assigned Douglas the job of doing something basic about simplifying instruments.

This project evolved into ANIP (Army-Navy Instrumentation Program) with Douglas coordinating the efforts of a highly-specialized industry team.

Result has been a remarkable control panel design—a visual highway down which the operator drives his aircraft, spaceliner, submarine, tank or ship with perfect confidence, even when visibility is zero. Also provided is a topographical map which gives him visual current information on his position and the reach of his fuel supply.

Civilian application of this new concept could well extend to ships, airliners and even trucks and cars which will drive themselves down this "electronic road."

ANIP is another demonstration of how Douglas imaginative thinking and practical know-how lead the way in today's technology.

New Army Commander Arrives At Aberdeen

BRIG. Gen. John H. Weber, left, new CG of Aberdeen Proving Ground, Md., is shown with Col. G. F. Powell, Deputy Commander, at formal welcoming ceremonies last week. The new commander was greeted by an 11-gun artillery salute and then inspected a guard of honor.

Senate Will Hear Plea For Carrier

The Defense Department will reclaim the Senate Appropriations Committee to restore \$293 million in the fiscal '61 budget, cut by the House, for a Forrestal class aircraft carrier.

During recent years, the Senate has been more sympathetic than the House to Navy carrier requests.

Chances are seen good that the carrier will be item for final resolution by a House-Senate Conference Committee.

In an address 6 May to the Navy League at Anaheim, Calif., Secretary William B. Franke said "we urgently need new large decks from which to operate our large, fast aircraft safely and efficiently."

The Navy Secretary emphasized that the Polaris submarine will not diminish the need for aircraft carriers.

"There is still need," said Secretary Franke, "for carrier task forces to provide measured power wherever the vast waters of the earth enable them to travel and wherever they are needed to prevent or contain a limited war."

"Polaris will not prevent another Lebanon—or a Korea—or a Quemoy—or a Berlin crisis," Secretary Franke told the Navy League. "Adequate limited war forces will always be needed."

"We must convince the Congress of the necessity of including a carrier in the Fiscal Year 1961 budget."

Col. Cather Is Commandant

Col. Leo W. Cather, former Commander of the South Texas Sector Command, VIII Army Corps at Fort Sam Houston, Tex., has been named Fourth Army Headquarters Commandant there.

With his wife, Clara Delle, and children, Janis, 12, and twin daughters, Patricia Lynn and Susan Scott, Colonel Cather, USMA '31, lives at 434 E. Hathaway Dr., San Antonio. A daughter, Carolyn, 26, is an artist living in London, England, and a son, Richard, 21, is a student at the University of Texas.

Pilot Slots

From first page—

rated officers. The House, in passing the fiscal '61 budget (THE JOURNAL 7 May), stipulated that only 97,546 rated officers may be paid flight pay.

The limitation does not apply, however, to officers with 20 years of rated service provided they are transferred to a non-flying status.

Among those receiving flight pay are 609 Navy and Marine Corps pilots who have been removed from active flying after 20 years' rated service.

Thus, the House limitation, unless reversed by the Senate and subsequently modified by a House-Senate Conference Committee, will be imposed against a total of 100,569.

If the Senate does not agree to complete elimination of the House ceiling, the Pentagon is hopeful that at least the 1 July deadline can be extended until the end of the year.

AF SAFETY FIRST

The Air Force Cambridge Research Center at Bedford, Mass., has become the first unit in Air Force history to win the USAF Flying Safety Award four times.

This award covers the last six months of 1959 when Center aircraft logged more than 8000 hours aloft during the half-year on flights from the North Pole to below the equator.

Col. Elmer W. Richardson is Commander of ARDC's Cambridge Research Center.

Citadel Studies \$957,000 Bond Issue

The Citadel Board of Visitors met last week at Charleston, S. C., to consider an institutional bond issue of \$957,000.

Board members attending the meeting were: Col. David E. McCuen, Jr., Col. W. W. Wannamaker, Jr.; Col. J. M. Holliday; Col. Eugene C. Figg; Col. Clarence C. Brown, Jr.; Col. C. A. Laffitte; Col. LeRoy Harrelson; and Hon. Frank Eopes.

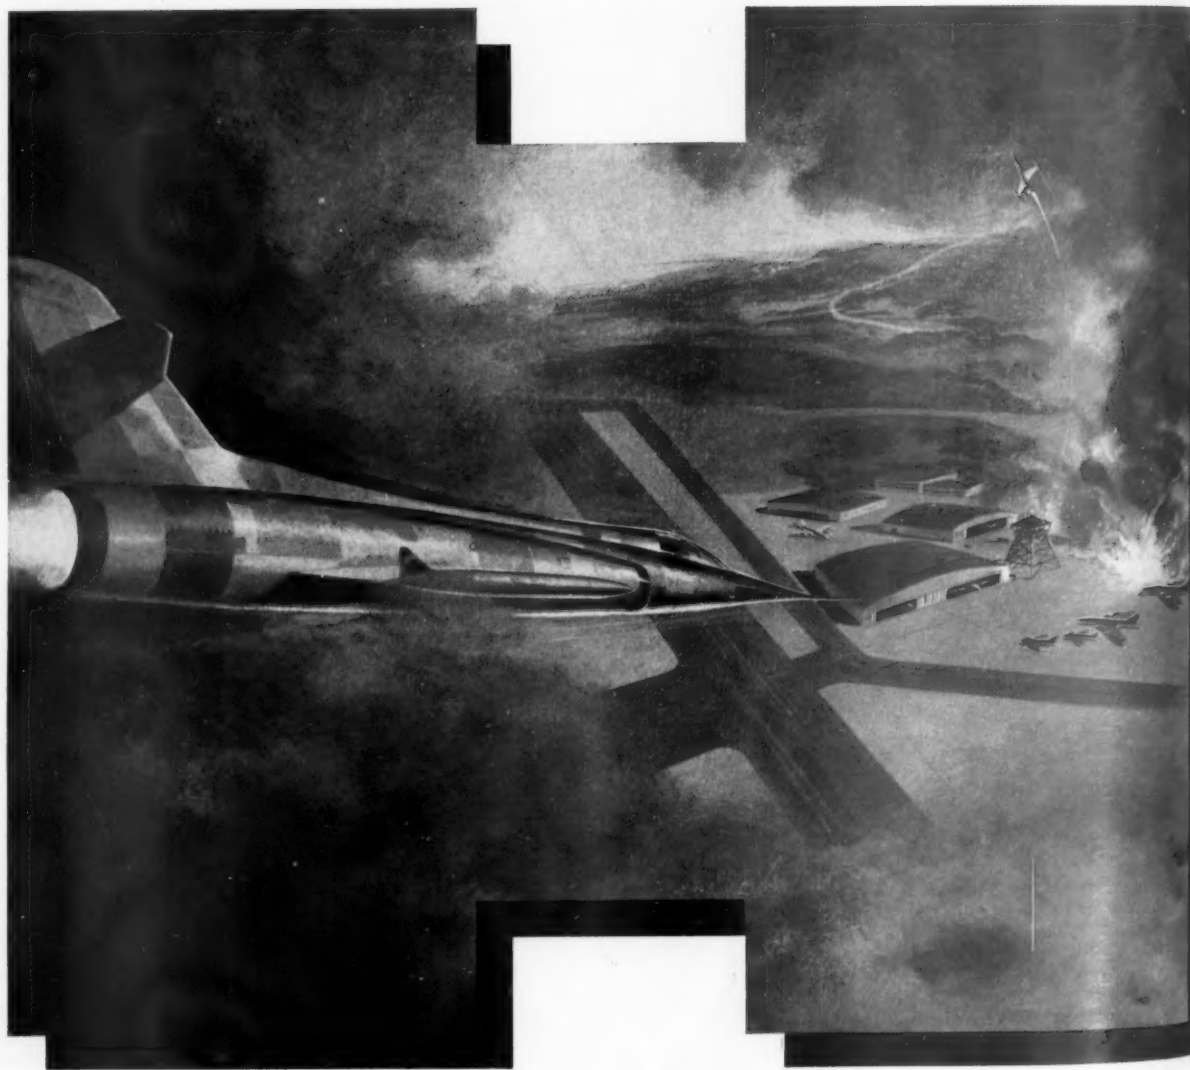

Colonel McCuen, Acting Board Chairman since the death of Col. J. M. Moorhead in February, was elected Permanent Chairman. Colonel Wannamaker was elected Vice Chairman, and Colonel Holliday was elected a member of the executive committee.

Next Week—

It's Georgia to Greenland for The Journal's Assistant Editor, Daniel Z. Henkin. He was at Ft. Benning, Ga., last week to cover the Army's Project Man, and this week flew to Greenland for an inspection of progress on the Ballistic Missile Warning network. His report from Thule will be published in the 21 May issue.

Next week's issue will focus attention on Capitol Hill, where critical decisions are being made in the Senate on the fiscal '61 budget, and where the fate of the Pay Equalization Bill remains to be determined.

How to radically increase tactical m

Maj. Christian Will Head Army Missile School Div.

Maj. Milton B. Christian has been named Chief of the Air Defense Missile Division at the Army Ordnance Guided Missile School, Redstone Arsenal, Ala. It is announced by Col. Charles W. Eifler, Commandant.

Formerly Deputy Chief, he succeeds Lt. Col. Ward T. Gilbert, recently made Director of the Department of Research and Curriculum at the Missile School.

Major Christian resides with his wife, Patricia, and their four children, Michael, Lynn, Vana, and Paula, at 421 Hughes Drive, Redstone Arsenal.

General Barclay, previously Commander of the Army Ballistic Missile Agency, an element of AOMC, is also one of the Army's top-ranking aviators.

mission success

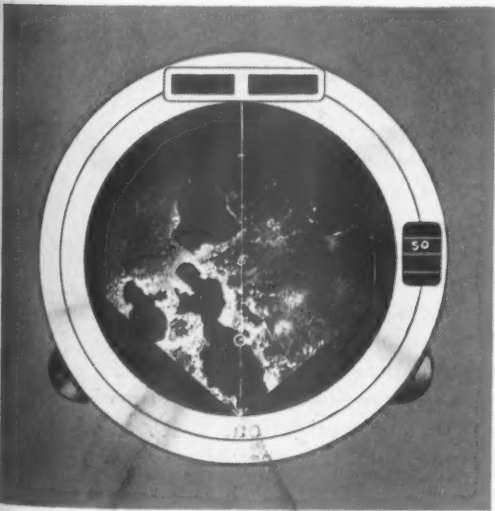

The new Hughes TARAN system is the optimum solution to the all-weather tactical mission problem! Here's what TARAN (Tactical Attack Radar and Navigator) offers:

1. A radar system with several times the azimuth and range resolution of current radars! Result: targets are more easily recognized and identified—terrain features are more readily identified and all-weather, low altitude pilotage is simplified.
2. A unique Navigational Display System which gives precise and continuous position indication and provides for blind pilotage directly to the target.
3. A Terrain Clearance System which provides a continuous display of flight path obstacles—thereby permitting flight at low altitude over all terrain.

4. A unique single channel radar signal processor—providing simplicity, reliability, and easy maintenance.
5. Human-engineered displays and controls for greater safety and ease of operation.
6. Attack modes which can accurately deliver any desired armament.
7. A system which is low in weight and small in volume...and easily maintained in the field.
8. A low initial cost and a low maintenance cost!

Equally important, this system is backed by extensive Hughes experience in developing and manufacturing over 16,000 reliable, high-performance all-weather interceptor systems.

TARAN is now ready to satisfy today's most critical tactical mission requirements! For information please contact: HUGHES, ADVANCED PROGRAM DEVELOPMENT, Culver City, Calif.

The display above furnishes radar information as a navigational check against the moving map display (right). In this way, it is possible to navigate directly to target in all kinds of weather!

The Moving Map Display provides the pilot with continuous position and course information. At each designated check point during the mission, the system automatically checks the map position against the radar display and makes the necessary flight corrections.

PROFESSOR DICK

Col. John Somers B. Dick has been appointed permanent Professor in the Department of Mathematics at the U. S. Military Academy.

Associate Professor since June 1958, he will be Deputy Head of the Department. Colonel Dick served two earlier assignments at West Point as an Instructor and Assistant Professor of Mathematics, the first from 1940 to 1943 and the second from 1946 to 1948. He has had additional experience in the field of Mathematics as an instructor at a USMA Preparatory School and the University of Maryland Overseas Courses.

Son of the late Col. and Mrs. William W. Dick, he was born 10 June 1913, in College Park, Ga., where his father was then Commandant of Cadets at Georgia Military Academy and member of the Georgia National Guard. Colonel Dick entered West Point as a Cadet in 1931 on an appointment from the Commissioners of the District of Columbia. He was graduated in 1935, standing 17 in a class of 277.

Colonel Dick also holds a Master of Science in Civil Engineering from Massachusetts Institute of Technology, received in 1937, and a Master of Science in Mathematics from Rensselaer Polytechnic Institute, awarded in 1958. He also is a graduate of the Army Engineering School at Ft. Belvoir, Va.; the Armed Forces Staff College, Norfolk, Va.; and the NATO Defense College in Paris.

Colonel and Mrs. Dick have three children, Nancy, Priscilla, and John. Mrs. Dick is the former Lucy Helen Gross, daughter of Maj. Gen. and Mrs. Charles P. Gross, USA-Ret., formerly of Washington, D. C., and now living in France.

Chaplain Leaves Atomic Agency For Formosa

Chaplain (Lt. Col.) Samuel O. Morreale, USA, Defense Atomic Support Agency Field Command Staff Chaplain at Sandia Base, N. M., has left for assignment on Formosa as Taiwan Defense Command Chaplain. He is succeeded by Chaplain (Lt. Col.) Robert F. Thornton, USA.

Chaplain Morreale has had much previous duty experience in the Far East. He was Division Chaplain of the 2d Infantry in Korea, Central Command Chaplain in Tokyo and Tokyo Chapel Center Chaplain.

Marines Seek Legislative Approval For New Proposal To Reassign Supply Officers To Unrestricted Status

THE Marine Corps, in a move to improve the combat effectiveness of its officer corps, has asked Congress to expand assignment opportunities for officers whose skills lie primarily in the supply field.

A legislative proposal sent to Capitol Hill 10 May by Secretary of Defense Gates calls for the reassignment of Marine Corps supply duty officers to an unrestricted category.

Current Marine Corps supply functions, in support of the Corps' combat structure, Secretary Gates said, "are such as to require the assignment of officers with a broad background of command and staff experience in the combat/combat-support fields."

Under present law, officers designated for supply duty are restricted in their assignments to supply duties only.

"While these officers are performing their present duty in an excellent manner," Secretary Gates said, "their effectiveness would be increased if they were permitted to perform both command and staff duties outside their restricted specialty."

The proposed legislation would transfer to the unrestricted officer category all officers now designated for supply duty except the present Quartermaster General, Maj. Gen. Chester R. Allen.

Integration of the supply duty officers into the unrestricted category, together with the introduction of increased numbers of unrestricted officers in this field, Secretary Gates said, would serve to broaden the special knowledge available in the Operating Forces. In addition, he said, it would insure the continued availability of officers possessing the requisite degree of specialization for the types of duty which they can best serve, without unnecessary restrictions upon their assignments.

Approximately 402 officers would be affected by the legislation: 1 major general; 5 brigadier generals; 35 colonels; 86 lieutenant colonels; 122 majors and 153 captains.

There are no Reserve officers designated for supply duty, and Marine Corps Reservists would not, therefore, be affected by the legislation.

Because enactment of the legislation would "vitally affect the individual careers of all the officers reassigned," Secretary Gates said the Navy "considers that it is important to outline to the Congress our current plans for the employment of these officers, both immediately after reassignment and in the future." Here are the details:

The degree to which reassigned officers could expect their duty assignments to be expanded depends upon their individual backgrounds and their length of service as supply duty officers. The more senior officers, by virtue of a continuous career in management type assignments are surely qualified to hold a wider variety of billets, both command and staff, than is now normal under existing practice. Therefore, their assignment would be based on individual qualifications.

In addition, until increased numbers of unrestricted officers gain experience in service support functions, there will not be available sufficient qualified unrestricted officers to rotate into the billets now filled by officers designated for supply duty. Therefore, almost all officers now serving in the grade of colonel could expect their assignments to continue in much the same pattern as they would expect under present law, but with the opportunity of wider variation in billet assignments. Their opportunity to attain general officer grade would remain substantially unchanged.

The future careers of officers now serving in the grade of lieutenant colonel would undergo a greater degree of variation from the present pattern because of the greater amount of time available, the greater degree of flexibility that is possible in the assignment of officers in grades below colonel, and the expanded billet requirements in the service support area. The present lieutenant colonels would be fully protected by the proposed

legislation into the grade of colonel.

Officers now serving in the grades of major and captain could expect the greatest deviation from the present career pattern for officers designated for supply duty. These officers have many years yet to serve in their normal careers and will have ample opportunity, by normal career progression and assignment to a wider range of duties, to gain the broad experience desired in a Marine Corps officer.

There is a provision in the legislation which permits the recently appointed Quartermaster General to complete his appointed term of four years in that office before reappointment and reassignment as an unrestricted major general. Upon completion of his term, he may be reappointed as a major general not restricted in the performance of duty, and his date of rank in that grade would be the same as his date of rank as a brigadier general.

For the eyes of the Pentomic Army

Advanced Honeywell MI will guide high-performance su

**Smallest, lightest unaided inertial system will direct complex
flight path over enemy territory for scanning, mapping and pinpointing
targets, and return drones to recovery area.**

The new theories and techniques of warfare call for missions that can be carried out only by combat surveillance drones that are increasingly sophisticated and recoverable for use again and again.

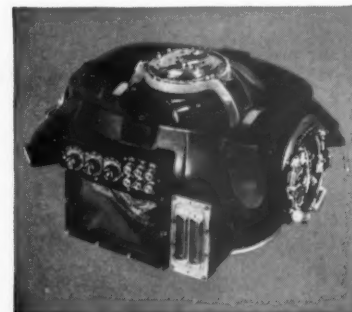

Under the guidance of the U. S. Army Signal Corps, Honeywell is providing for the newest of these unmanned aircraft the most advanced, versatile and accurate *miniature* inertial guidance system yet developed. The system enables programming to provide surveillance over several areas during each flight, and safe return of the drone to the recovery area.

Although missions include reconnaissance and mapping, the most important is target pinpointing. Here it is necessary that the inertial system of the drone be extremely precise, since the target-position information the drone gathers is utilized by the inertially-guided ballistic missile which is fired on the target. Honeywell achieves such precise performance characteristics through

the use of an advanced miniature integrating gyro and pulse-torqued accelerometer.

Both vehicles—the AN/USD-5 (Fairchild Engine and Airplane Company) and the AN/USD-4 (Republic Aviation Corporation)—will accomplish separate missions using virtually the same Honeywell inertial guidance equipment. The heart of this system was designed for adaptability to other navigation and stabilization requirements for Army surveillance, as well as to other inertial applications that include developments for the Centaur Space Probe and the Bomarc Interceptor Missile.

Honeywell's program management approach and experience in development and production of similar equipment on several programs results in precise miniature inertial systems for less cost than is customary in the industry. For additional information on Honeywell's background in inertial guidance and navigation, write to Honeywell, Minneapolis 8, Minnesota.

Inertial platform, heart of the inertial guidance system. This platform is the inertial reference and utilizes a highly precise GG8001 Honeywell gyroscope and GG116 pulse-torqued accelerometer.

All Services Figure In House Group Proposal For Airlift Boost

From first page—

aircraft for MATS interim modernization.

- New rules and regulations to upgrade the capability of the Civil Reserve Air Fleet.

- More assault-type aircraft for the Tactical Air Command.

- Centralized control of various "private airlift" operations which now exist outside of MATS.

- Continued use of MATS aircraft to transport military traffic.

- A MATS utilization rate equal to at least one-half the surge rate required for extended operations in general or

limited war.

- Creation of a strategic airlift capability within Air Force Reserve components.

- Increased emphasis upon the planning the execution of realistic airlift exercises.

The Committee was sharply critical of "responsible Air Force authorities" for not giving new MATS aircraft a high enough priority "to be funded."

New interim aircraft recommended by the Committee for MATS were approved by the House in the fiscal '61 military appropriations bill and sent to the Senate shortly before the airlift report was

released. Chairman Rivers had appeared before the Appropriations Committee to make a special appeal for the planes.

As these aircraft and others of greater capacity and speed than present MATS planes becomes available, the Rivers group said the size of the MATS fleet "can and will be reduced," but the precise number "must continue to be related to the hard core requirements."

At present, the strategic airlift capability is "seriously inadequate," the Committee said.

The Committee noted that the hard-core requirements currently are being reviewed at the Pentagon "with a strong

Army Navy Air Force Journal
14 May 1960 (Vol. 97, P. 1031)

7

likelihood that they will be increased, both from the standpoint of the Army and the Tactical Air Command."

In the tactical airlift area, the Committee said there is a definite requirement for "immediate modernization of the tactical air fleet and increased emphasis on the development of the C-130C with boundary layer control which will replace the C-123 assault transport."

Adequate tactical airlift, the Committee said, "must be physically positioned in both the European and Pacific theaters to support the airborne assault of a minimum of one airborne battle group force in each theater."

With such tactical airlift immediately available, the reaction time of Army troops will be greatly enhanced, the Committee declared.

In addition to its survey of both strategic and tactical airlift requirements and capabilities, the Committee also took a look at other airlift resources in the Services and concluded that "practically every major command in the Air Force, as well as organizations within the other Services, have acquired their own private airlift."

The Committee said the noteworthy exception is the Strategic Army Corps "which is totally dependent on non-Army sources for its air support, whether it be strategic, tactical or logistic."

The "private airlift" listed by the Committee includes SAC's strategic support squadrons, AMC's logistic support squadrons, miscellaneous AF transportation squadrons, AMC's Logair service, the Navy and Marine Corps Quick-Trans operation, and Navy and Marine Corps organic airlift.

The Committee said it has been advised that these additional airlift resources are reviewed annually, and recommended "that in the next annual review full consideration be given to bringing these operations under centralized control."

In another area, the Committee said it had been "unable to arrive at a precise hourly utilization rate for the aircraft within MATS," and recommended that the rate "be established at not less than one-half of the surge rate required for extended operations in the event of general or limited war."

MATS has taken the position that it must fly its aircraft in the common user fleet at a rate of five hours per day in order to be able to attain its surge rate under wartime conditions.

Notwithstanding criticism that MATS planes carry too many military passengers, the Committee recommended that MATS, "in the performance of its peacetime utilization rate, continue to transport military traffic, first, in justification of meaningful training, and secondly, as a matter of economy."

Committee recommendations concerning the Civil Reserve Air Fleet involved a number of points.

The Committee said the current contractual relationship of CRAF participants does not produce a desirable degree of responsiveness to meet national emergencies.

At present, the President has authority to take possession and assume control of transportation elements in time of war. The Committee recommended that "consideration be given to extending this authority to periods of national emergency short of general war."

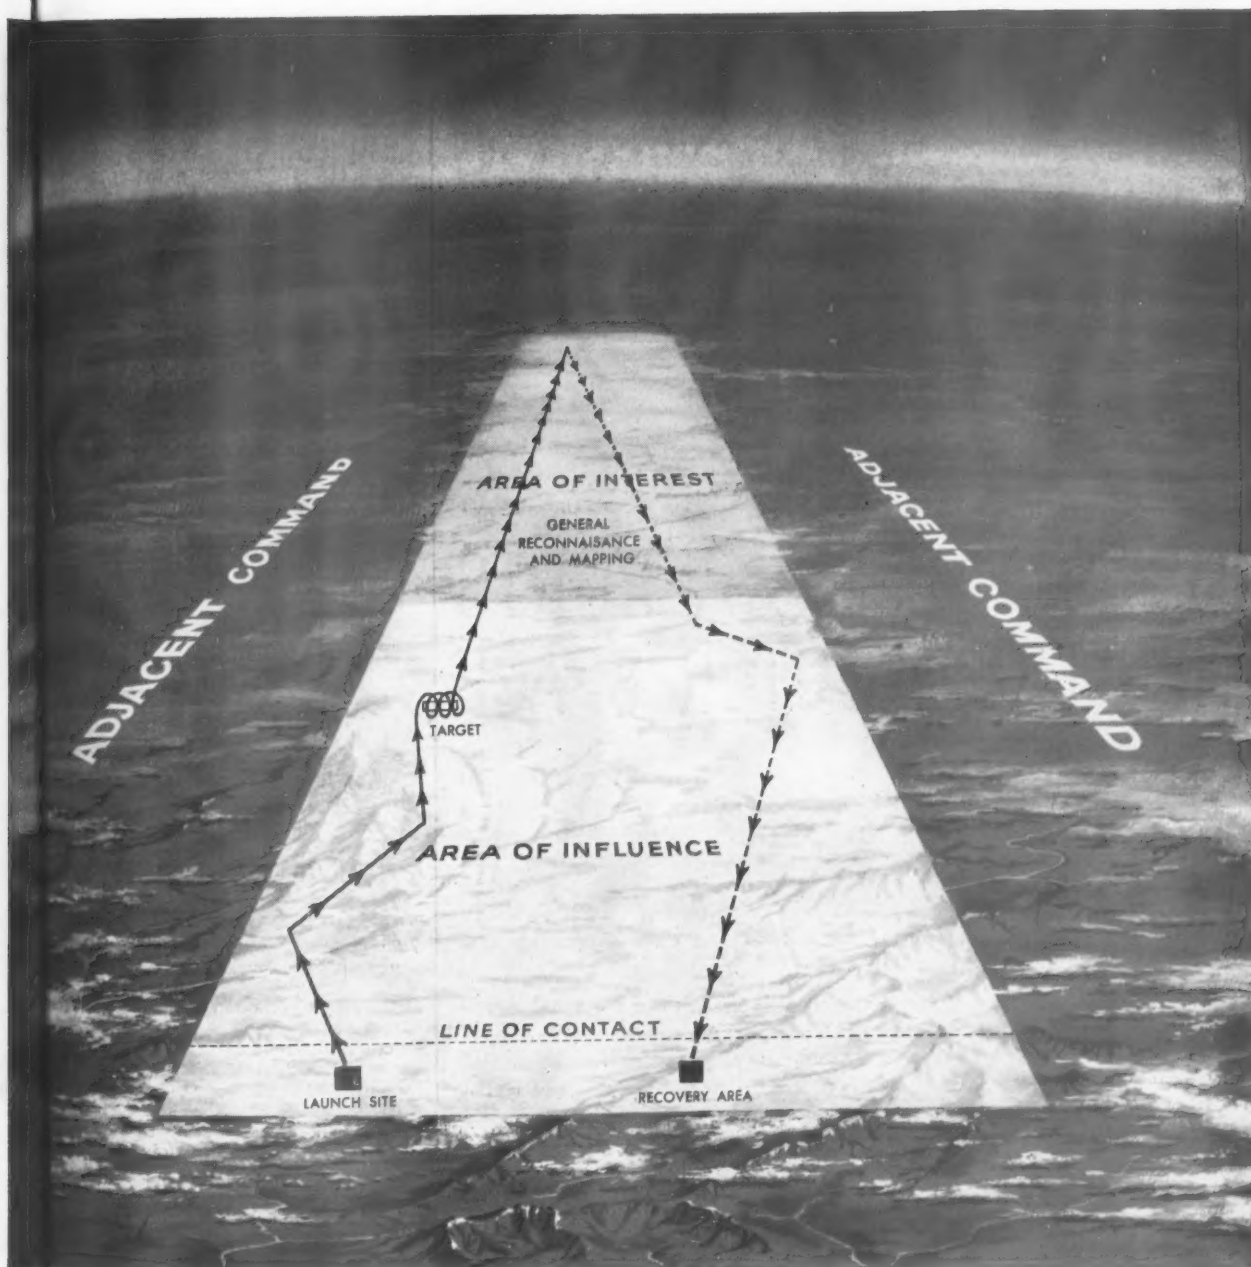

CRAF participants, the Committee said, should be required to execute agreements with their employees to insure against work stoppages when they are called on to support a national military requirement. And, participants also should "have, or be firmly obligated to procure, modern, long-range, turbine-powered cargo aircraft."

The Committee recommended that the Air Force take prompt steps to develop a program insuring "both an adequate and an equitable participation of the participants in CRAF to meet the contingency of partial mobilization." These CRAF recommendations, the Committee said, should be implemented by 1 January 1961.

In the procurement area, the Commit-

Air Force Revises Captain Promotion

From first page—

tenants eligible under the new rules will meet in July. The actual promotions will be made in September.

On the basis of past experience, it is estimated that about 600 lieutenants will be deferred. This means that about 5,500 will be promoted.

In the fiscal '60 selections to captain, which were made on the basis of three years in grade, a total of 13,631 lieutenants were eligible.

There were 5,185 selections, among whom one had three years service, 10

had four years, and 221 had five years service.

The fiscal '60 selections saw 2,585 lieutenants with six years service and 2,297 with seven years service chosen. There were 71 named who had from eight to 12 years service.

Air Force officials estimate that the new program will delay the advancement to captain of about 250 lieutenants, who might have been promoted during fiscal '61, but who now must wait until they complete five years of Promotion List Service.

With the change to the new criteria,

the Air Force will separate from active duty those lieutenants who fail twice of selection to captain. There are about 255 lieutenants on active duty who have been considered two to nine times for advancement.

Air Force officials, explaining the decision to have no "below the zone" promotions to captain, said that in the grade of lieutenant there are inadequate records on which to make an "outstanding" determination. They said that at that grade the emphasis should be on broad training efforts, rather than on attaining "outstanding" marks which often depend on remaining in a single type of assignment.

It is to be noted that, in seeking Congressional approval of the "White Char-

ger" legislation which authorizes "below the zone" permanent promotions to other ranks, the Air Force did not seek this authority for advancement to captain.

Another reason for the decision against "out of line" promotions to captain is the feeling among Air Force officials that this leads to OER "inflation."

In determining where to fix the eligibility cut-off date for the fiscal '61 board, the Air Force considered the possibility of an expanded zone. By using a June 1955 date for the five year requirement, the number of eligibles would have been increased to 8,490 and to 10,327 for July-September 1955.

The Air Force is hopeful that perhaps for fiscal '62 it will be possible to change the five year requirement, possibly to four and a half years. This would place the Air Force on a more nearly equal footing with the other Services, but depends in large part on changes in the Officers Grade Limitation Act. This requires legislation.

A point has been made that in using Promotion List Service as the basis for promotion selection, a number of officers who were commissioned before age 21 are penalized. This is seen as no major problem for promotion to captain.

Among 7043 Regular first lieutenants only 77 are in this category. In other ranks, 54 general officers out of 397 Regulars have more active service than PLS. It is 165 out of 4,375 for colonels; 238 out of 7,903 for lieutenant colonels; 1,263 out of 12,176 for majors; and 1,657 out of 15,569 for captains.

AF LIEUTENANTS TRAIL OTHERS IN SERVICE

Air Force first lieutenants, who will not be promoted until they have at least five years Promotion List Service, are at the bottom of the Service ladder when it comes to promotion to captain.

The Army's next board will consider lieutenants with date of rank on or before 31 March 1958. There will be some, including JAG, Chaplains, Veterinarians and MSC officers (with PhD's) who can have date of rank as late as 30 September 1959.

The Navy promotes lieutenants (jg) to lieutenant after four years commissioned service.

Marine Corps first lieutenants, after 18 months as second lieutenants, must have two years in grade to be eligible for consideration to captain.

Col. McNight To 86th Wing

Col. David T. McNight will be reassigned in June from the Directorate of Plans at USAF Headquarters to the 86th Fighter Interceptor Wing of USAF.

Headed for USAF Headquarters is Lt. Col. William D. Perry, jr., Directorate of Personnel Planning at USAF Headquarters.

B/G Terhune To Hanscom

Brig. Gen. Charles H. Terhune, jr., Vice Commander of the Air Force Ballistic Missile Center, has been designated as Deputy Commander of the newly established ARDC's Command and Control Development Division at L. G. Hanscom Field, Bedford, Mass. Maj. Gen. Kenneth P. Berquist, commands the new division.

Brig. Gen. Loren G. McCollom, who originally had been ordered as Deputy Commander, has been reassigned to command Detachment 4 of the Air Defense Command's 4608th Support Squadron at Hanscom.

Maj. Trimble Takes Command

Maj. Claude M. Trimble has been selected by Col. Harold C. Kirkpatrick, Base Commander, to command the 4123d Aircraft Support Squadron at Clinton-Sherman AFB, Okla.

Major and Mrs. Trimble, the former Miss Ruth L. Gallagher of Little Rock, reside at 318 Suwannee Road, Clinton-Sherman.

TIROS satellite orbiting towards ground station in Eastern United States.

RCA-BUILT "TIROS" SATELLITE REPORTS WORLD'S WEATHER FROM OUTER SPACE

As you read these lines, the most remarkable "weather reporter" the world has ever known hurtles around our globe many times a day, hundreds of miles up in outer space.

The TIROS satellite is an orbiting television system. Its mission is to televise cloud formations within a belt several thousand miles wide around the earth and transmit a series of pictures back to special ground stations. Weather forecasters can then locate storms in the making . . . to help make tomorrow's weather forecast more accurate than ever.

The success of experimental Project TIROS opens the door to a new era in weather forecasting—with benefits to people of all lands. This experiment may lead to advanced weather satellites which can provide weathermen with hour-by-hour reports of cloud cover prevailing over the entire world. Weather forecasts, based on these observations, may then give ample time to prepare for floods, hurricanes, tornadoes, typhoons and blizzards—time which can be used to minimize damage and save lives.

Many extremely "sophisticated" techniques and devices were required to make Project TIROS a success—two lightweight satellite television cameras, an infra-red

horizon-locating system, complex receiving and transmitting equipment, and a solar power supply that collects its energy from the sun itself. In addition to the design and development of the actual satellite, scientists and engineers at RCA's "Space Center" were responsible for the development and construction of a vast array of equipment for the earth-based data processing and command stations.

Project TIROS was sponsored by the National Aeronautics and Space Administration. The satellite payload and ground station equipment were developed and built by the Astro-Electronic Products Division of RCA, under the technical direction of the U. S. Army Signal Research and Development Laboratory.

The same electronic skills which made possible the success of man's most advanced weather satellite are embodied in all RCA products—RCA Victor black & white and color television sets, radio and high-fidelity systems enjoyed in millions of American homes.

Orlando Base Wins MATS Safety Award

FLYING and maintenance elements at Orlando AFB, Fla., have compiled a three-year record of nearly 23,000 hours without an accident in aircraft that are at least 15 years old.

For their achievement, Brig. Gen. Clifford H. Rees, right, Commander of the Air Photographic and Charting Service, has presented to Col. Kenneth D. Kienth, OAFB commander, a 1959 MATS Accident-Free Squadron Award. Also present for the ceremonies were OAFB Safety Officer, Capt. Theodore J. Hammer, and APCS Safety Officer, Maj. Edward C. Beauregard.

NEW COLONELS

The Air Force will announce next month the names of approximately 350 lieutenant colonels chosen for temporary eagle rank.

They were chosen from 1200 officers, whose names were forwarded by major commands from among a total of some 600 lieutenant colonels who were eligible.

Two AMC Colonels "Move"

Col. Edmund D. Lynch, Chief of the Industrial Engineering Division of the AMC Directorate of Maintenance Engineering at Wright-Patterson AFB, Ohio, will move next month to Dayton Air Force Depot as Director of Maintenance Engineering.

Col. Herbert E. Johnson, Jr., will relinquish this post and will assume duties in the AMC Maintenance Directorate.

Both Colonel Lynch, who lives at 300 Witherby Drive in Kettering, Ohio, and Colonel Johnson, who makes his home at 2695 Edwin Dr., Xenia, Ohio, indicated that neither family contemplated moving as a result of the transfer.

L/C Douma At Norton

Brig. Gen. William G. Hipps, Director, Readiness Inspection, 1002d Inspector General Group, Norton AFB, Calif., has announced assignment of Lt. Col. Cyril R. Douma to the Installations Management Branch, Materiel Inspection Division after duty as Deputy Commander for Civil Engineering at Bunker Hill AFB, Ind.

Colonel Douma and his wife, the former Dorothy Becker, and their two children make their home at 522 Judson in Redlands, Calif.

Nine Join Weather Group

Nine officers have been recently assigned to the 2d Weather Group at Langley AFB, Va. They are Lt. Col. Joseph M. Bird, Maj. Ralph L. Butler, and Maj. Evan J. Deemer, assigned to the Langley Forecast Center; Maj. Thomas W. Lane, Capt. Arthur C. Danner, and CWO, W-3 Max L. Crowder, to the 16th Weather Squadron, Ft. Monroe, Va., and Maj. Clarence O. Seaman, 1st Lt. Richard C. Hale, and CWO, W-2 Ernest P. Krajewski with Group Headquarters.

SAC is now off and running with its new Hound Dog missile. With the supersonic GAM-77 missile, the B-52 bomber can more easily hurdle ground defenses on the way to a target. In the short span of just 30 months, the Hound Dog air-to-surface missile grew from the drawing board to a powerful member of SAC's deterrent team.

Silencing enemy ground defense centers while the mother ship speeds on toward the main target is just one of the jobs of the versatile GAM-77 missile. Slung beneath the swept-back wings of a B-52, a pair of GAM-77's can either clear a path for the bomber, or be sent right in on the main target itself. This triple-threat capability lets a single B-52 command a target approach corridor over a thousand miles wide.

To further confuse the enemy, these inertially-guided missiles can feint at pseudo-targets before turning toward their real objectives. Speed and altitude variations can also be programmed into the GAM-77's target approach.

The Hound Dog missile greatly extends the useful life and striking power of SAC's B-52 bombers—the backbone of America's strategic power. The GAM-77 is being produced by the Missile Division of North American Aviation.

Navy Opposes Admiral Rickover's Proposal On ASW Special Projects Chief

From first page—

mediate establishment of a single manager system for ASW, organized along the lines of Admiral Raborn's office, which is authorized to cut across normal lines of communication outside the usual chain of command.

Top Navy officials will tell the Senate Appropriations Committee that creation of a similar organization for ASW would not achieve the results envisioned by Admiral Rickover.

In an interview with THE JOURNAL, RADM. Redfield Mason, Assistant Chief of Naval Operations (Fleet Operations and Readiness), wondered: "How many single manager systems can you have, without them meeting head on?"

Mr. Gordon O. Pehrson, former Plans and Programs Director for Admiral Raborn, who is now serving as Assistant Chief for Program and Management Plans under RADM. Paul D. Stroop, Chief of the Bureau of Naval Weapons, predicted that forced creation of a single manager for ASW "would result in chaos."

Noting that there are more than 75 programs being handled by BuWeps, Mr.

Pehrson observed that "we do have a management organization" for ASW programs.

Following consolidation of the Bureaus of Ordnance and Aeronautics in the Bureau of Naval Weapons, Mr. Pehrson said, the formation of a Program Management Group has resulted in "a stronger organizational effort" in the ASW field.

Under RADM. Charles T. Booth, II, Assistant Chief of the Bureau of Naval Weapons for Program Management, there are six Program Directors whose full attention is devoted to special projects.

One of the six sub-divisions under BuWep's Program Management Group is a Director of ASW whose function is to coordinate all phases of the ASW development program. "All efforts of BuWeps can be and have been assigned with a specific purpose in mind," Mr. Pehrson said.

In an official statement in response to queries from Pentagon reporters regarding establishment of a single manager for ASW, the Navy said: "Anti-submarine warfare is organic to all Navy op-

erations and therefore does not lend itself to a single management procedure such as that applied to the Polaris system. Polaris is a single weapon system meeting a single requirement, while ASW is a multitude of weapon systems meeting requirements for all phases of naval warfare.

"These include—but are not limited to—hunter-killer group operations, ocean surveillance and patrol, striking force operations, amphibious warfare, and convoy protection. In other words, ASW involves air, surface, and sub-surface forces with integral weapon systems.

"As such, it represents not only a cross section of the Navy but the heart of the Navy itself. It is therefore managed as an integral part of the entire management plan."

The Navy response to the proposed special projects office approach to ASW development, asserts that "the Navy has recognized the complexity and importance of the problem and has superimposed on its regular and well-proven management tools a monitoring and coordinating structure."

The Navy points out that it has set up at the Secretarial level the Secretary's

ASW Committee which reviews and decides upon major issues of policy. Secretary of the Navy William B. Franke serves as Chairman of the ASW Committee.

Admiral Arleigh Burke, CNO, has assigned RADM. Howard A. Yeager, as his Aide in the ASW area. Admiral Yeager's official title is "Anti-Submarine Warfare Readiness Executive, Naval Operations." The Navy says, in civilian parlance, this is equivalent of "Assistant to the President for ASW Matters."

In addition, the Navy points out that it established in 1959 a new Deputy Chief of Naval Operations (Development) to coordinate all research and develop in the Service, including that of ASW. The Development Chief is VADM. John T. Hayward.

The Navy adds: "A coordinator for ASW matters has been established within each of the technical bureaus."

The official statement concludes: "The Navy considers its present organization both adequate and appropriate to cope with the ASW problem. It considers establishment of a special project office for single management of ASW not appropriate."

Marine Standings

The following Regular Marine Corps officers are the last as of 1 May who have been advanced or for whom promotion vacancies existed under terms of the Officer Personnel Act of 1947:

GRADE	PERMANENT	TEMPORARY
MajGen	Weller, Donald M.	Krulak, Victor H.
BGen (Unr)	Shaw, Samuel R.	Robertshaw, Louis H.
BGen (SDO)	Cloud, George H.	John, Philip W.
Col	Churley, Robert A.	Blackwell, John O.
LtCol (Unr)	Hansen, Neil M.	McGraw, Thomas F.
LtCol (LDO)	Utz, Joseph W.
Maj (Unr)	Kralovec, Francis R.	Beyerle, Garland T.
Maj (LDO)	Anderson, E. D.
Capt (Unr)	Bonsall, William O.	Canzano, Peter J.
Capt (LDO)	Whitley, Billy L.

NEW MAW G-3

Col. Homer G. Hutchinson has succeeded Col. Hugh M. Elwood as First Marine Aircraft Wing, G-3 at Iwakuni, Japan.

Colonel Hutchinson relinquished his post as Wing Communications Officer to his assistant Lt. Col. Harold S. Hill.

Colonel Elwood has been assigned to the Office of the JCS, Washington, D. C.

To 3d MAW

Anderson, Earl E, AWC Carlisle Bks.
Lawrence, Hamilton, NWC, Npt.

To NWC, Newport

Jones, William K, MCRD PI SC.
McKenna, William J, 2d Mar Div.
Wann, Erwin F, jr, 2d Mar Div.

PREBLE TO FLEET

The Navy's newest guided - missile destroyer leader, Preble (DLG-15), joined the Fleet 9 May after a commissioning ceremony at the Boston Naval Shipyard, Charlestown, Mass. Her commanding officer is Cdr, Edward G. Fitz-Patrick, USN.

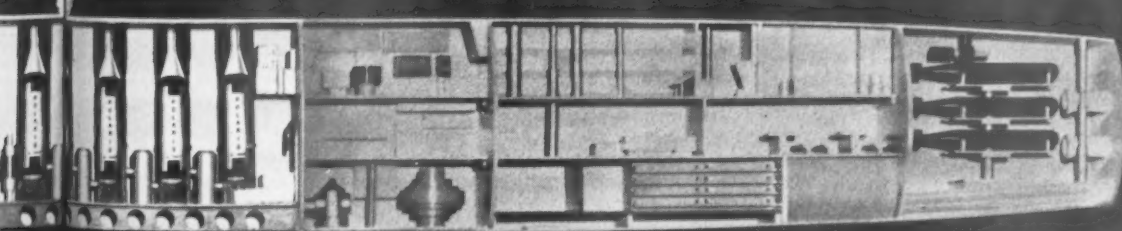

This 512-foot ship is the fifth to be named for Commodore Edward Preble, USN, renowned for his contribution to Naval discipline and training. A 5600-ton destroyer leader, the second Preble to be built at Bath Iron Works, was launched at Bath on 23 May 1959.

She is one of only two especially constructed guided - missile destroyer leaders to be built at Bath. Her sister ship, USS Dewey (DLG-14), was commissioned last December.

Principal speaker at the commissioning ceremony of the Preble was RAdm. Charles E. Weakley, USN, Commander of Destroyer Forces, Atlantic Fleet. Ship's sponsor, Mrs. Ralph Wilson, wife of VAdm. Wilson, USN, Deputy Chief of Naval Operations for Logistics, was present with her husband at the event.

RAdm. Carl F. Espe, USN, Commandant of the First Naval District read the orders which officially placed the Preble in commission.

laissiles

U. S. Navy Polaris submarine is a self-sufficient missile base. It provides comfortable quarters for its hundred-man crew and carries supplies for several months. In its launching tubes—eight on each side, as shown in this away model—will nest 16 Polaris missiles. But a Polaris sub differs from all other missile bases in one important respect: it can disappear from the face of the earth for weeks at a time. Though its position in ocean depths will be known, its presence will be felt. For—should America ever be attacked—each Polaris sub could launch its Polaris missiles in as many minutes. Lockheed is prime contractor and system manager for the Polaris missile.

Title "Military Airlift Command" Emphasizes Need

The Rivers House Armed Services Subcommittee, in its definitive and admirable report on the military airlift (see story on first page) has emphasized in two major ways its determination that its recommendations shall be carried out.

In the first such instance, it recommended that the full House Committee on Armed Services survey these recommendations through the authority granted in the act passed last August giving the committee the right to pass on service projects. There should be, said Representative L. Mendel Rivers' Subcommittee, "a continuing effort to maintain a proper balance between our airlift capabilities and the other weapons provided the Armed Forces through the constitutional mandate placed upon the Congress to 'raise and support Armies.'"

Mr. Rivers would thus assure, by periodic checks, that due emphasis is being given to airlift requirements and that it will not suffer again from the temptation to starve it by putting funds into projects which may be considered at the time to be more rewarding.

The second point in which Mr. Rivers puts great store, is the Subcommittee's recommendation that MATS official name be changed from the present "Military Air Transport Service" to "Military Airlift Command." The members feel that this would tend to direct thinking more to its combat requirements both on the part of the military people themselves and also by Congress and the public.

When MATS was set up as the first joint operation under the then new unified Defense Department it was visualized as the single air transport system which would operate all transport aircraft of the various services and perform all such air transport functions for them. But that has not happened. Whether this was because MATS was not given the equipment needed for its job, or whether the services and branches of the services felt compelled to retain control of some of their own transportation is beside the point. The point is that the Committee is determined that our defense forces shall have an adequate airlift and that it shall be kept fit to perform those functions for all the Services.

Military Aviation Leads The Way For Commerce

Mr. C. R. Smith, President of the American Airlines, has brought out with clarity the vital importance of the relationship between progress in military aviation and progress in commercial aviation. Speaking last week at the Aviation Writers Association's News Conference here, Mr. Smith pointed out that some nation, sooner or later, will put a supersonic transport into operation in its airlines and that aviation leadership then will pass to the nation which does such pioneering.

However, the costs are so high that in this country, certainly, no Mach 3 transport will be built until the ability to operate at Mach 3 has been proven. The best opportunity to do that lies in the completion of the Air Force's now curtailed and delayed B-70 program.

Mr. Smith recalled how, in the past, the development of high-speed, long-range bombers, with great carrying capacity had advanced the state of the art. The know-how thus having been brought out, Mr. Smith said, the financial courage of the airplane manufacturers and airlines then made possible the quantity production of jet transports and the virtual revolution in our airlines.

It is probable, the airline executive contended, that it would cost no more to be the leader in the introduction of supersonic air transportation than to "catch up" at some later date. In fact, he believed it would cost less to lead, provided the technical solutions are produced in the B-70 program.

Fundamentally, of course, the decision on the B-70 should be on a military basis. Every day's delay in the project stretches out that much further in the future when we may expect the next big step in combat aircraft.

Mr. Smith said of the supersonic transport, "Nothing is to be gained by continuing to drift." Most emphatically this also applies to our military aircraft program.

Navy's Achievements In Submarines Win World Praise

The Navy's spectacular and dramatic achievement in making history's first submerged circumnavigation of the globe deserves the appreciation and praise of all Americans. There is no doubt but that it has stirred the imagination and admiration of peoples everywhere, particularly among the maritime nations.

The Navy's pioneering in the field of atomic powered submarines, under Admiral Rickover's constant spur, has put this nation in the forefront in this vital and rewarding area. Too, it has given our industry the opportunity to develop the know-how and experience for future programs. In the case of the Triton, for example, it was built by the Electric Boat Division of General Dynamics Corporation, while General Electric supplied the two water-cooled reactors each driving a separate power plant and drive shaft and giving it a speed in excess of 20 knots either submerged or on the surface.

The Triton's skipper, Capt. Edward L. (Ned) Beach, who was so significantly honored by President Eisenhower, is the son of Mrs. Alice Fouche Beach of Palo Alto, Calif., and the late Capt. E. L. Beach, USN. He was graduated second in the U. S. Naval Academy class of 1939 winning the award as the Midshipman who had done most to advance Naval spirit and loyalty in the Regiment. Submarines attracted him early in his career and he was graduated from the Submarine School, first in his class, in 1941. In the war he served nearly three years on the famous USS Trigger participating in the Battle of Midway and nine war patrols.

The Navy has demonstrated new war potentials for submarines and also has led the way for a great step forward in water borne commerce.

READERS' VIEWS:

Reserve Retentions

■ In a casual perusal of the story (9 April) regarding the names of the Career Reservists selected for retention in the Army, I came across some very interesting statistics. Please remember that this is merely an observation.

With reference to the grade of Captain, out of the 151 who were considered "outstanding," 31 fell in this grade. Of this 31, 11 were members of the Adjutant General's Corps or 35+ % of the total. Of the 186 Captains out of the 715 other Reservists retained, 59 were AGC or 31+ % of the total.

This casual perusal doesn't indicate a thing, except that a Reservist in the grade of Captain has a better chance for retention in the AGC than in any other branch. It does, however, seem odd—Don't you think?

Incidentally I wish to express my "thanks" to you for the fine job that THE JOURNAL does, especially for those of us far removed from the nerve-center of activity. Keep up the good work.

CAPTAIN, INFANTRY

Pershing Biography

■ I am working on a biography of General John J. Pershing (1860-1948), commander of the A.E.F. in World War I. I would be interested in hearing from anyone who has letters, anecdotes, personal reminiscences, or other information about General Pershing.

DONALD SMYTHE, S.J.
GEORGETOWN UNIVERSITY
WASHINGTON 7, D. C.

Half-Way Measure

■ The pending retired pay equalization bill (HR 11318) accomplishes only half way equalization. Only those now receiving retired pay under the Career Compensation Act of 1949 can participate in the pay equalization. Thousands of officers and enlisted men are denied retired pay equalization because the Career Incentive Act of 1955 nullified Sect. 511 (b) of the Career Compensation Act of 1949, thus barring them from payment under the Act. (Sect. 511 (b) simply gave the right to receive retired pay under the Act for length of active service).

The nullification of Sect. 511 (b) has frozen my retired pay to the Pay Readjustment Act of 1942 by reason of having served in World War I.

For many years, Congress, in its concern to safeguard the rights of the individual, included in its retired pay laws the provision, "That hereafter the retired pay of officers who were retired on or before the effective date of this Act, shall not be less than that provided for officers of equal rank and length of service retired after that date." In simple justice to the individual, this provision should be included in the new bill for retired pay equalization. Or, Sect. 511 (b) should be restored to its original effectiveness.

There can be no justification for the nullification of the right of some to receive retired pay for length of active service.

Thanking you for your support in our behalf, I remain,

COLONEL, USAF-RET.

IN THE JOURNAL

Pentagon Loses Slot Machines; Army Balloon School Opens; General Grant Off For Aquia Creek

10 Years Ago—Secretary of Defense Louis Johnson has ordered the removal of slot machines in the officers' athletic facility at the Pentagon. However, there was no indication this week that an order would be sent out requiring the removal of slot machines from military reservations where State laws do not apply. It was said that State laws do apply at the Pentagon.

50 Years Ago—The United States Army balloon school for officers opened at Fort Omaha, Neb., 11 May, and a large number of officers from western posts are taking the course.

96 Years Ago—Lieutenant General Grant's plan for his advance into Virginia appears to have been to follow a line of operations nearly corresponding to the direct route from Fredericksburg to Richmond, making his base at Aquia Creek, instead of upon the railroad from Alexandria to Culpeper.

Budget Debate Covers A-Plane, Project Man, Retired Officers, Carrier, Bomarc

It may be only coincidence, but three of the major changes made by the House Appropriations Committee in the fiscal '61 military budget were recommended to the Committee by VADM. H. G. Rickover, Assistant Chief of the Bureau of Ships. The outspoken nuclear-propulsion expert said the Navy should be authorized more submarines (both Polaris and attack subs). He said the anti-submarine warfare program should be placed under a single manager, and he urged a substantial cut in headquarters staffs. The Committee granted the extra submarines, recommended immediate establishment of a single manager for ASW and ordered a 10% reduction in "departmental administration."

The Navy, despite the fact that it is the smallest of the three major Services and that the cut was recommended by one of its own flag officers, took the biggest slice of funds for "departmental administration." In ordering the reduction in headquarters staffs, the House-approved budget limits the Navy to \$102.7 million for expenses of departmental administration. The Army is limited to \$89 million and the Air Force to \$85.2 million.

Appropriations Committee suggestions for a new review of the atomic aircraft program brought immediate reaction from Representative Mel Price (D-Ill.), who serves on both the Joint Atomic Energy Committee and the House Armed Services Committee. Congressman Price said the aircraft nuclear propulsion program has been marked by many ups and downs, but most of them were "due to outside interference, by reviews of groups within and without the Government." Even so, he said, there has been steady technical progress and the program is now at the point "where we can finally apply the technical knowledge we have obtained to a flyable aircraft engine."

The President, Project Man and the Army Budget. . . Commenting on President Eisenhower's visit to Ft. Benning, Ga., Representative Emilio Q. Daddario (D-Conn.) said the Chief Executive saw two spectacular demonstrations of new equipment which can be used on the battlefield. But, he said, some newspaper stories "unfortunately, convey the impression that the President thought the demonstration proved that America was in excellent defensive posture that should not be subject to criticism. The truth is, as the President should have heard, that many of these weapons are not yet in the hands of the troops and some are not even in production." Until the fiscal '61 military appropriations bill, "and others like it, make it possible to buy better weapons and put them in the hands of troops," he said, "the Army as a whole would be unable to fight the battle it demonstrated" at Fort Benning.

When Representative Alfred E. Santangelo (D-NY) made his second abortive attempt to win approval for an appropriations bill rider barring retired officers from jobs with defense contractors, only three members of the House rose to join him in the attack. They were Representatives F. Edward Hébert (D-La.), Jamie L. Whitten (D-Miss) and George A. Kasem (D-Calif.). Those who fought the move and won its defeat by a vote of 89-53 were Representatives Paul J. Kilday (D-Tex.), Gerald Ford (R-Mich.), George H. Mahon (D-Tex.) and Leslie Arends (R-Ill.). Congressman Mahon, Chairman of the House Military Appropriations Subcommittee, may have foreclosed any possibility of future efforts along these lines with his statement that the House "cannot appropriately handle the issue with this sort of a rider on an appropriation bill."

Although no effort was made during the House debate on the military appropriations bill to provide increased strength for the Army and Marine Corps—as has been the case in the past—Representative Daniel J. Flood (D-Pa.) said he is not happy about the fiscal '61 manpower ceilings on the two Services. "If I had my way," he said, "I would place in this budget the dollars and hardware for the Marines to be, certainly at a minimum of 200,000." The Army, he said, should have at least 900,000. Commenting on present Army strength, the Congressman, who is known for his pithy remarks, took a sharp jab at the President. "When General Eisenhower became President Eisenhower," he said, "the great Army of the United States had 20 great divisions and the great Army of the United States for every year that General Eisenhower has been President Eisenhower, has lost a division a year. In seven years, we have lost seven divisions."

In a discussion of the Bomarc cut-back, Congressman Flood said: "From beginning to end, the thing was a fake." He told House Members they couldn't "take it out here and shoot the starlings off the Supreme Court building in the next 10 minutes." Others disagreed. Representative Robert L. F. Sikes (D-Fla.) said he thinks "it is entirely possible that the faults which have plagued the early tests of Bomarc-B now have been successfully overcome and that we may have a properly functioning weapon within a short time." Representative Ford said if scheduled Bomarc tests are successful, the Air Force may be able to persuade the Senate to restore the funds. Responsible officials, he said, are convinced that the technical problems "can and will be licked." Representative William E. Minshall (R-Ohio) said he thinks that continuation of the "billion-dollar boondoggle" would be "to send good money after bad."

The decision to kill the Navy's carrier was not a completely unanimous move on the part of the House Military Appropriations Subcommittee. Congressmen Ford, Sikes and Harold C. Ostertag (R-NY) all disclosed during the floor debate that they are opposed to the action. Mr. Sikes said he thought the step was "a serious mistake." Congressman Ford said he is hopeful the Senate will restore the funds, and "If they do, then in conference there is a chance, and I hope it materializes, that the carrier will be included in the final version." Representative Samuel Stratton (D-NY) of the House Armed Services Committee also protested elimination of the carrier as "a grave strategic error."

Boost Airlift, House Group Urges

From page 7—

tee made another series of recommendations which it said it would also like to see in effect by next January. The Committee urged that:

- When Congress earmarks MATS funds for procurement of commercial airlift, the procurement "be initially restricted to the participants of CRAF."

- Such airlift be procured on an advertised competitive basis.

- If advertised bidding does not result in a rate that is fair and reasonable both to the Government and the bidder, that negotiated procurement be substituted.

- Both competitive and negotiated contracts shall be for periods of not more than three years, and shall include standard termination clauses.

- Negotiated contracts shall include an option for annual reviews, with authority to extend the contract for one year throughout the contract term, based on the Government's evaluation of the performance of the contractor.

- That the reasonableness of the negotiated rate of each negotiated contract shall be subject to annual review and, at the option of the Government, shall be subject to renegotiation.

- In the procurement of commercial airlift from the participants of CRAF,

the MATS Commander shall exercise discretion in the award of contracts in order to insure maximum CRAF participation and an equitable consideration of all CRAF participants.

- Commercial airlift which cannot be met under any of the foregoing provisions, shall be procured on an advertised competitive basis from among any bidders who qualify with the bid specifications, without regard to participation in CRAF.

The Committee also recommended an expansion of the strategic airlift capability of the Air National Guard and Air Force Reserve.

In addition to the six C-97 squadrons which have been established within the ANG, the Committee urged that "such additional C-97 units, as may be militarily justifiable, be established in either the Air National Guard or the Air Force Reserve; that additional KC-97's in their aerial-tanker configuration, in such number as may be justified by military considerations, be transferred to the ANG or the AFR, in order to establish a POL resupply capability in accordance with the lessons learned in the Big Slam/Puerto Pines exercise; that as C-124's become excess to the active inventory they be transferred, in accordance with the requirements then existing, to the ANG or the AFR."

JCS "Assumptions" Are Criticized

TWO of three basic "assumptions" formulated by the JCS in determining military airlift requirements were attacked 10 May by the Rivers Subcommittee.

The third "assumption" also was hit. The Committee said it is "unable to rationalize" the preallocation of aircraft which resulted.

In determining present airlift needs, the Joint Chiefs considered "three assumed military situations," the Committee said. These were:

- 1—Six months of mobilization followed by 60 days of general war,
- 2—General war, without warning or prior mobilization, D-Day and M-Day coinciding,

- 3—The resumption of hostilities in Korea under a limited war situation.

The Committee said it is unable to "foresee the luxury of a six-month mobilization period" and "could not accept the validity of the JCS assumption."

In the case of general war, the Committee noted that the Joint Chiefs have preallocated "practically the entire MATS fleet" to the use of SAC and TAC within the first 20-day critical period of such a war. Recognizing "the vital importance of many of the other missions to be performed," the Committee said it is "wholly unable to rationalize the preallocation of military strategic aircraft almost exclusively to Air Force requirements, to the exclusion of the requirements of the other Services."

The Committee noted, also, that the second assumption did not take into consideration the loss of aircraft either to the enemy or to operational failures. "Any realistic assumption would presume some loss of aircraft," the Committee said.

Regarding the third "assumption," the Committee noted that it has been approved by the Joint Chiefs for planning purposes only, and that no airlift requirements have been worked out. "This means," the Committee said, "that the already approved requirement of the Joint Chiefs of Staff, against which firm plans have been made, relates exclusively to the assumption of general war without warning."

The Committee observed that the "assumption" concerning renewed Korean hostilities "includes many of the most favorable circumstances that could be desired in a military situation" since pre-positioned combat units and equipment already exist in Korea, as well as depots, supply lines, personnel, airfields, port facilities, and maintenance and overhaul capabilities.

Even so, there would be a "serious" airlift shortage within the first 20 days, the Committee said.

The Rivers group also noted that planning for the third contingency "assumes that there were no other limited war requirements simultaneously existing in other areas of the world."

MEMO--

THE ARMY WILL HOPE that the President's action designating Lt. Gen. Emerson C. Itschner for an additional two-year tour as Chief of Engineers—his present four-year tour does not end until October—will be followed by similar early announcements of top general officer changes. In comparison with the other Services, top Army officer assignment shifts frequently have been delayed until the last minute.

TWO CURRENT EXAMPLES of delays in Army general officer shifts are the Seventh Army command in Germany and the position of Army Comptroller. Lt. Gen. Francis W. Farrell, Seventh Army CG, has been due to retire in May on the basis of 35 years service, 5 years in permanent grade and attainment of age 60. As *The Journal* went to press this week, a successor had yet to be named. The same was true for Lt. Gen. W. S. Lawton, the Comptroller.

CERTAIN TO FIGURE in the forthcoming Army three-star changes is Lt. Gen. Garrison H. Davidson, West Point Superintendent. Speculation as to his successor continues to center in the Army on Maj. Gen. William C. Westmoreland, 101st Airborne Division CG at Ft. Campbell, Ky.

THE "ONCE A MARINE, ALWAYS A MARINE" doctrine will be maintained despite a heavy increase that will occur in Marine Corps retirements during the next three years. Lt. Gen. Wallace M. Greene, CofS, has issued a statement which tells how contact will be maintained through the Retired Activities Section. There are now about 15,000 retired Marines. This number is expected to exceed 22,000 by 30 June 1962. General Greene's communication notes that the Retired Activities Unit will help Marines who desire employment after retirement. It says that "about one year prior to planned retirement, a Marine should commence preparing himself for a second career. In so doing, the transition from military to civilian life can be more easily accomplished."

ALTHOUGH THE OFFICER IS NOT IDENTIFIED BY NAME, there can be no mistake whom the House Appropriations Committee has in mind when it wrote this sentence into the report on the fiscal '61 military appropriations bill: "Except for the indefatigable effort and obstinacy of one man we probably would not have the nuclear powered submarine." That the Committee was greatly influenced by VAdm. H. G. Rickover is reflected in its report on the fiscal '61 budget (see page 14).

THE \$374 MILLION EARMARKED FOR POLARIS in the House-approved military appropriations bill is approximately one-third of the total amount available to the Navy in the fiscal '61 budget for all research, development, test and evaluation programs.

DR. HERBERT F. YORK'S research and engineering office has received top praise from the House Appropriations Committee. From testimony and from a report of its investigators, the Committee said it has been "persuaded that the establishment of this office has in fact resulted in the saving of money and the better application of the scientific and technical personnel working for the Department of Defense."

HOT-HEADED NAVAL OFFICERS will be in evidence when the Navy's newly adopted white plastic cap cover hits the market. The plastic top is easier to keep clean—it can be wiped off with a damp rag—but lacks the loose weave of the standard white cotton cap cover. Officers will have to choose between the convenience of the plastic model and coolness of the cotton type.

POLICY DIFFERENCES mark Service handling of disability retirements, (see page 3). In the Air Force, for example, a large majority of those retired with heart disease are placed on permanent disability retired lists. Approximately half of the heart disease cases in the Army receive permanent retirements. The Navy, on the other hand, assigns less than 10% of its heart disease retirees to its permanent disability retired list. The Navy prefers to keep them on temporary lists where cases can be reevaluated.

THERE IS MORE INTER-SERVICE AGREEMENT on tuberculosis and mental disease, where the majority of such cases in all Services are put on the temporary disability retired lists for continual reevaluation and possible separation from the Service at a later date. Even here, the Navy is strictest, placing all mental cases on the temporary list. The Air Force places over 85% of its mental illness retirees on temporary list, and the Army places over 75% on the temporary list.

GOLD-GIRDLED NAVAL OFFICERS, on duty in cool weather areas, will begin to appear in large numbers 1 July—the date set for mandatory wear of the new Dinner Dress Blue Jacket (Mess Jacket) with gold cummerbund. On the same date, a new Dinner Dress White Jacket, worn with a black cummerbund, is prescribed for wear by officers assigned to hot-weather areas. The new semi-formal attire is required for admirals, captains and commanders and is optional for lieutenant commanders and below.

A SOVIET SCIENTIST HAS BEEN RECRUITED by a U. S. Navy officer to teach a course in Basic Russian to men at McMurdo Sound in Antarctica. Cdr. Lloyd W. Bertoglio, who commands U. S. Antarctic Support Activities, has organized a study program for men "wintering over," with Navy officers and U. S. scientists handling much of the instruction. The Russian course is given by Mr. Svened Evteev, an exchange scientist.

INTERNATIONAL USE HAS BEEN SET for a newly-revised book by Cdr. Burdick H. Brittin of OpNav's Strategic Plans Division, and Dr. Liselotte B. Watson of the Navy JAG Office. Titled "International Law for Seagoing Officers," the work will be used by the U. S. Naval, Coast Guard and Merchant Marine Academies, and the naval academies of Germany, Spain and Denmark. A Japanese translation is being prepared. More than 100 copies have been sold for use in Russia.

MAJ. GEN. JOHN D. RYAN, SAC Director of Materiel at Offut AFB, Nebr., will take command of the Sixteenth Air Force at Torrejon AB, Spain, in July. This summer will see another Air Force general officer switch in Spain as Maj. Gen. Joseph D. "Smokey" Caldara, Deputy Inspector General for Safety, moves from Washington to Madrid to be Chief of the Joint U. S. Military Assistance Group.

THE NAVY HAS MORE PLANES than the Air Force in the Pacific. The Navy has 2700, of which 1800 are combatant types. The Pacific Air Forces have 1800, about 1200 of them combatant. U. S. Air Power in the Pacific also includes the air wings of two Marine Divisions.

SHRINKING REQUIREMENTS FOR PILOTS will see the Air Force train less than 2000 in fiscal '62. A 2200 training rate is programmed for the year starting 1 July. The Air Force, which had 57,643 pilots in fiscal '57, anticipates a strength of 50,745 during the next fiscal year. With a step-up in officer retirements ahead, this figure will drop below the 50,000 mark in fiscal '62.

THE URGENT AIR FORCE REQUIREMENT for amendment of the Officer Grade Limitation Act is pointed up anew in a comparison (see Page 1) of promotion opportunities to captain with those to similar ranks in the other Services. Air Force officers also trail in advancements to other ranks. Although OGLA does not directly affect promotions to captain, the ceilings on other ranks do impose a limit on the number in the Air Force who can be advanced to captain.

LEGISLATION TO REVISE OGLA has been promised for the next session of Congress, but two major hurdles remain to be cleared. The first is at the Pentagon, where Assistant Secretary of Defense Charles C. Finucane's response to Service presentations will be critical. The second is at the Bureau of the Budget. If Mr. Finucane does not endorse vigorously the proposal to amend the OGLA, Air Force leaders can be expected to seek an opportunity to present their case to Deputy Secretary of Defense James H. Douglas. As a former Secretary of the Air Force, he knows the difficulties that Service will face unless promotion opportunities improve.

A BIG PROBLEM which the Air Force has is the popular, but erroneous, belief that its officers still are receiving accelerated promotions, as was the case 15-20 years ago. Air Force spokesmen must shoot down this misconception to assure a favorable Congressional climate for consideration of OGLA changes.

THE ARMY'S NEW ATOMIC WEAPON, Davy Crockett, which was shown for the first time during Project Man at Ft. Benning, Ga., (The Journal 7 May) may join other new Army weapons, such as the Hawk missile and the M-14 rifle in Marine Corps service. The Marine Corps is "monitoring" Davy Crockett progress.

SECRETARY OF DEFENSE GATES is reported to have been particularly impressed with the Army's highly mobile Pershing missile during his visit with President Eisenhower to Project Man. During the two-day weapons showing at the Infantry Center, Lt. Gen. Arthur G. Trudeau, Army Research and Development Chief, publicly attributed a 300-mile range to Pershing, but its present capabilities and growth far exceed that distance.

THE BUDGET BUREAU'S "LIMOUSINE" DIRECTIVE is now in the hands of the Defense Department. The circular sets no new restrictions on the use of VIP automobiles. Ballyhooed on Capitol Hill as a move to tighten up on unofficial use of limousines and other heavy passenger cars, the directive does little more than call for an annual review, with a listing of the autos in use. First report is due at the Budget Bureau on 30 September.

FOURTEEN NCO'S FROM LAOS and an MSC officer from Thailand are participating with the 4th Infantry Division in Exercise Elk Horn this week at the Yakima, Wash., Firing Center. Usual practice is for foreign military men to serve as observers in a maneuver, but in this case they have been assigned regular duties.

YOU CAN BE SURE the other Services will react if the Army hits hard with follow-up statements on the assertion by Secretary Wilber M. Brucker during Project Man at Ft. Benning, Ga. (The Journal 7 May) that "the Army now has the most important strategic weapons system in the world." General Lyman L. Lemnitzer, in his Project Man presentation, went to far greater lengths than did the Secretary to point up the contributions of the total Defense Team. Secretary Brucker did that too, but his use of the term "strategic weapons system" is certain to cause considerable stirring in the other Services.

Now USAA will insure your Valuables anywhere in the world

Over the years we all accumulate valuable personal effects which, if destroyed or lost, would require considerable cash to replace. USAA, the non-profit insurance association serving the services since 1922, now offers a WORLD WIDE FLOATER to protect your household and personal effects.

This new policy is so inexpensive that no officer of the US Armed Forces can afford to be without the protection that it offers. The small cost of this policy is further reduced at year end when USAA returns a dividend, currently 27.5%.

With this new USAA WORLD WIDE FLOATER there are no geographical restrictions. There is no adjustment in premium because of change in location of your goods. You enjoy protection everywhere in the world.

The USAA WORLD WIDE FLOATER covers personal effects owned by you, your wife and dependent members of your family.

You are insured against the hazards of fire, lightning, windstorm, hail, explosion, riot and civil commotion, smoke or smudge, vehicle or aircraft damage, accidental escape of water and transportation hazards; also, theft, pilferage, larceny, burglary, robbery, holdup and embezzlement.

Fill in the coupon to order insurance today or for descriptive booklet.

UNITED SERVICES AUTOMOBILE ASSOCIATION

Charles E. Cheever, Colonel, USA - Retired, President

Dept. AJ-9, USAA Building, 4119 Broadway, San Antonio 9, Texas

TYPE OF COVERAGE

COVERAGE 1. — Fire, Lightning, Windstorm, Hail, Explosion, Riot & Civil Commotion, Smoke or Smudge, Damage by Vehicles or Aircraft; Accidental escape of Water, and Transportation.
Minimum Coverage: \$1,000 — Maximum: \$15,000

COVERAGE 2. — Theft, Pilferage, Larceny, Burglary, Robbery, Holdup, and Embezzlement.
Minimum Coverage: \$1,000 — Maximum: \$7,500

The MINIMUM policy written is a combination of \$1,000 Coverage 1 and \$1,000 Coverage 2. NEITHER COVERAGE WILL BE WRITTEN ALONE. Either coverage may be written for higher amounts.

Army Orders Beech Command Transport

FT. BENNING, GA.

The Army has ordered a substantial quantity of new twin-engine Beechcraft L-23F multi-purpose command transports, it was announced here jointly during Project Man by the Army and Beech Aircraft Corporation of Wichita, Kans.

"This new contract reflects the Army's enthusiastic acceptance of the versatile L-23F airplane," said Beech Vice President-Contract Administration James N. Lew. "Production has already begun at our main factories in Wichita."

Initial units delivered under an earlier order are now in Army service in the U. S. and Germany. Newest addition to the distinguished L-23 series, the prototype L23F model was first flown 28 August 1958.

Powered by two 340 hp Lycoming supercharged fuel injection engines, the L-23F has a high speed of 239 mph, a service ceiling of 27,000 feet and a range of 1,445 miles. Except for a completely new fuselage, the "F" model is essentially the same as the famous L-23D.

Mr. Lew also announced that the Army has awarded Beech an order for additional RL-23D aircraft incorporating the APQ86 SLAR (side-looking airborne radar) battlefield surveillance system. Beech will both produce new aircraft and modify existing L-23D Seminole transports to RL-23D configuration under the contract.

RL-23Ds previously modified by Beech are now carrying out radar observation and radar photography missions in the Far East, Europe and the U. S. Flexibility of the Army L-23D, military counterpart of the Beechcraft Twin-Bonanza business plane, allows many alternate installations, including 1,275 pounds of electronic equipment in the SLAR-equipped version.

Beechcraft also builds the Army KDB-1 missile target for weapons system evaluation and training. This medium-performance, remote-controlled target flies to altitudes over 40,000 feet and is recoverable by parachute.

Here's Your Home Site

Retired Officers agree—
"The Monterey Peninsula
Country Club Area is the
Place to Buy, to Build"

And with good reason! This 5000-acre beauty spot offers discriminating officers the full, rewarding retirement life they've dreamed of.

Buy now, build later. Special purchase privileges can be suited to your present circumstances, while controlled development sustains the value of your property.

Sites from ¼-acre to several acres are adjacent to the spacious Country Club, with its congenial golf course and bathing pool.

And year round outdoor recreation is matched by the convenience of facilities at the nearby Monterey Presidio, Fort Ord, and Naval Postgraduate School.

Investigate now. Postcard brings you free 20-pp. illustrated brochure from
DEL MONTE PROPERTIES CO.
Box M-10, Pebble Beach, California

FREE BOOKLET

IRAN MAAG CHIEF WILL RETIRE

MAG. GEN. Roy E. Lindquist, Chief of MAAG Iran, will retire in June. He and Mrs. Lindquist departed Teheran by air for Rome 10 May and will reach New York on board the Constitution on 20 May.

Their arrival will be marked by a reunion with their younger son, 1st Lt. Robert E. Lindquist, assigned 2d Battle Group, 503d Airborne Infantry, Ft Bragg, N. C., who will be in New York on leave at that time prior to transfer to Okinawa. Their other son, 1st Lt. Roy E. Lindquist, jr., is located in Mainz, Germany, where he is assigned to the 1st Battle Group, 505th Airborne Infantry.

Freight Traffic Meeting Is Set

The Military Traffic Management Agency's Central Traffic Region, commanded by Col. Joshua R. Messersmith, will conduct a General Freight Traffic Management Conference 1-3 June at the Deshler Hilton Hotel, Columbus, Ohio. Approximately 100 Transportation Officers and civilian Traffic Managers, representing Army, Navy and Air Force installations in Ohio and Indiana have been invited to attend.

Purpose of the conference is to provide a general orientation on freight traffic management, and to equip the conferees with necessary data to conduct local installation conferences of similar nature.

MOVING OVERSEAS?

Statterson, Victor E. Colorado Springs, Colo., to USA Elm MAAAG, Vietnam, Saigon.
Brown, Charles P., Ft Sill, to ODCSOPS USA, Wash, DC.

4%

G.P.M. is currently paying 4% interest on the following:

- Accumulated dividends
- Proceeds from policies which are paid under any settlement options
- Discount on premiums paid in advance up to twenty years

GPM services have been increased also. Our regional service offices have been expanded from six to eleven in order to better service policyholders throughout the United States. Today GPM serves 55,000 policyholders with more than 190 millions of insurance in force.

PL 810 Retirements

The Army has placed the following
named National Guard and Reserve offi-
cers and First Sergeant Arthur M. Gil-
man on the retired list upon their at-
tainment of age 60 and completion of at
least 20 years creditable service as pro-
vided under Title III, PL 810, 80th Con-
gress:

Colonel

Olson, Clarence H. Simpson, James C.
Wood, James C. Bonsall, Thomas F

Lt Colonel

Slipskoff, Samuel A. Travis, James E
Duncan, Dorman L. Hodge, Howard E
Taylor, Ralph L. Anderson, F L
Bishop, Joseph I. West, Lionel M
Curtis, Vernon C. Johnson, Robert B
Brown, A P

Major

Cole, Cecil R. Regnier, Walter O
Moore, Edka C

Money Matters

... and very much indeed to all of us. It matters now and it
will matter even more when retirement comes along and pay
decreases. Investments can make up the difference. Selection of
securities and continuous supervision will do much to accom-
plish the needed increase in value to produce added income.

The problem is to know what to buy and when to buy it. This
calls for the kind of informed judgment which Investment
Counselors can provide. If you have \$25,000 in cash or securities
and are interested in —

- Capital growth
- Increased income to supplement retirement pay
- Continuous and full management of your investments despite change of station or service overseas

Write to us for a copy of our booklet:
"Thirty-five Years of Investment Counseling."

MOON CRAFT

The U. S. will be able to launch a moon craft weighing 10 tons in 1965, Dr. Ernst Stuhlinger told the American Rocket Society's semi-annual meeting in Los Angeles on 9 May.

Director of the Research Projects Laboratory, Army Ballistic Missile Agency, Huntsville, Ala., soon to become part of the Marshall Space Flight Center of the National Aeronautics and Space Administration, Dr. Stuhlinger said the moon ship would be fired atop a Saturn C-2 configuration utilizing 1,500,000 pounds thrust in the booster stage, 800,000 pounds thrust in the second stage and 80,000 pounds thrust in its third and final stage.

The scientist described a moon ship consisting of the following components:

Structures and cooling system 1,500.

Retro rocket to land the ship softly on the lunar surface, 1,100 lbs.

Propellant, 10,700 lbs. Guidance and control equipment, 550 lbs.

Thermal protection, 400 lbs. Communications, 200 lbs.

Power supplies, 550 lbs. Scientific instruments, 5,000 lbs.

By means of television and telemetry equipment, the spacecraft would report to Earth receiving stations images and physical measurements of the Moon's surface and its environment.

"Launch vehicles of the Atlas and Saturn classes, particularly the latter, will be capable of supporting unmanned lunar exploration as it is presently visualized," Dr. Stuhlinger said.

"Manned landing on the Moon and return to Earth would require several Saturn vehicles. They would carry out a refueling maneuver in a low earth orbit, then one Saturn-boosted spacecraft could take off from that orbit, land two men on the lunar surface, and return them to Earth's surface."

"Manned flights of this kind will probably not be feasible before the 1970-75 period."

AF RESERVE BOARD MEETS

A BOARD will convene at the Air Reserve Records Center in Denver, 13-14 June to consider approximately 300 eligible Reserve second lieutenants not on extended active duty for promotion.

To be eligible, these officers must hold a promotion service date on or before 31 December 1957. Officers selected for promotion will be promoted on the date they complete three years of service.

The Board will also consider approximately 50 first lieutenants for unit vacancy promotions to captain. To be eligible for consideration these officers must have completed two years Promotion List Service and be recommended by their Commander.

Eligible officers who wish to submit communications under the provisions of Section 8366, Title 10, United State Code, should write direct to President Reserve Officer Promotion Board, Air Reserve Records Center, 3800 York Street, Denver. All communications must arrive prior to the date the board convenes.

Rapid Fire Communications Network Goes Into Action For Air Force

The Air Force placed in operation 9 May a 5,500,000-mile high-speed communications network linking over 350 air bases around the globe.

At the tap of a gold telegraph key in the Pentagon, Deputy Secretary of Defense James H. Douglas inaugurated the system which has a capacity of 130,000,000 words daily, moving at a speed of 100 words per minute.

Mr. Douglas flashed a congratulatory message to Siegelbach AB, Germany, where the last of 10 major automatic switching centers integrating the global system was being inaugurated by top Air Force officials.

This event culminated two years of joint effort by the Air Force and the Western Union Telegraph Company in providing the first global communications system of this type.

Maj. Gen. Harold W. Grant, USAF Director of Communications-Electronics, said, at the Siegelbach ceremonies: "In the present atomic missile, jet and space age 15 minutes is the brief amount of warning which the Air Force must be prepared to meet. In that short time our planes would have to be in the air, our missiles prepared for launching and our populations warned to take shelter. These defense and retaliatory measures can only be taken through an effective and highly sophisticated communications system."

General Frederick H. Smith, jr., Com-

mander, U. S. Air Forces in Europe; Maj. Gen. James Dreyfus, Director of Communications-Electronics Joint Chiefs of Staff; Brig. Gen. J. Francis Taylor, Commander EAME-AACS (Europe-Africa-Middle East-Airways and Air Communications Service); Col. Jack Ford, Commander Central European AACS Region; Walter P. Marshall, President of Western Union, and Ray Hoover, Vice President—Western Union Plant Department, were among the military and civilian dignitaries attending the ceremonies at Siegelbach.

The domestic part of the system links 250 Air Force stations in the United States. The overseas part purchased by the Air Force will serve 111 stations. The five main message centers in the domestic system are at the Andrews, McClellan, Wright-Patterson, Carswell and Robins Air Force Bases. The overseas centers are at Fuchu, Japan; Hickam Field, Hawaii; Croughton, England; San Pablo, Spain and Siegelbach, Germany.

All automatic switching equipment was engineered by Western Union to meet Air Force specifications based on joint military characteristics and was installed by the company's Plant Department. Air Force personnel were trained by the telegraph company to maintain the centers, with technical assistance being provided at all centers by Western Union.

SERVICE FAMILY NOTES

Family Editor
Louise B. McGiffertAssociate Family Editor
Bertie Johnson

Air Force Family To The Philippines

LT. COL. Edward J. Kaminski, former Travis AFB, Calif., Commander, and his family leave this month for Clark AFB, Philippine Islands. Left to right kneeling are Mary Lee and Lynn. Seated are Robert, Mrs. Kaminski, Colonel Kaminski, and Edward Jr.

Service Folk

Col. C. E. Howland, USA-Ret, former Deputy Post Commander of Fort Ord, Calif., will become Executive Director of the Monterey Peninsula Community Chest, residing with his wife, Donna, at 910 19th St., Pacific Grove.

William M. Kahn, son of Lt. Col. and Mrs. Harry Kahn, AUS-Ret., 923 Salem St., Denver, has been selected as principal in the NROTC Scholarship Competition. He plans to continue his training at the University of Colorado, where he is a sophomore, and will graduate as an Ensign.

Jayne Ritchie, daughter of Col. and Mrs. Charles A. Ritchie of Fort Benning, Ga., is in the high school National Honor Society. **Patsi Ritchie**, Jayne's sister, was selected in 1957.

Connie Shivers, daughter of Lt. Col. and Mrs. George W. Shivers, Jr., a freshman at Mississippi Southern College at Hattiesburg, has been initiated into the Phi Mu Sorority as the outstanding pledge for 1960. She served as President of her pledge class. She has been named by the Dean of Mississippi Southern College to the Honor List for both the Fall and Winter quarters.

Colonel Shivers, accompanied by his wife and daughter, Margaret, is stationed on Taiwan as an advisor to the Nationalist Chinese and is assigned to the Anti-Aircraft Artillery Advisory Team of the MAAG.

Susan D. Goodpaster, 17, daughter of Brig. Gen. and Mrs. Andrew J. Goodpaster, USA, 801 North Overlook drive, Alexandria, Va., will receive a National Merit scholarship and will attend Wellesley College, where she will major in mathematics. Her father is Staff Secretary at the White House.

Lt. Col. Richard Kyle, who retired in December after more than 20 years' service with the Air Force, has established the public relations firm of Dick Kyle Assoc., Inc., of 1295 Northern Boulevard, Manhasset, L. I., N. Y. Colonel Kyle, his wife, Dorothy, and their two boys, Richard II, 16, and Dale, 12, reside at 196 Berry Hill Road, Syosset, Long Island, N. Y.

Service Weddings and Engagements

CAPT. (USN) and Mrs. Edward J. Fahy of 5607 Ontario Circle, Washington, D. C., announce the engagement of their daughter, Elizabeth Cryan, to Midshipman George Roland Weeks, USNA '60, son of Mrs. Martin Jay Lawrence, wife of Rear Admiral Lawrence, USN, and the late Col. George Roland Weeks, USMC.

Miss Fahy, whose father is Assistant Chief of the Bureau of Ships for Research and Development, was graduated from Williams Memorial Institute, New London, Conn., and attended St. Joseph's College in Maryland and the Dominican College, San Rafael, Calif. She is the granddaughter of the late Mr. and Mrs. William A. Finn of New York City, and the niece of the late John F. X. Finn, Dean of Fordham University Law School. Her fiancé is the grandson of Mr. and Mrs. David Scott Burnett of Charleston, S. C., and the nephew of Col. William Herbert Price, USA, of Arlington, Va. His step-father is Assistant Chief of the Bureau of Ships.

COX-STUBBLEBINE—Mr. and Mrs. John H. Stubblebine of North Plainfield, N. J., announce the engagement of their daughter, Kay Estelle, to Lt. (jg) David Barker Cox, USN, son of Mrs. Stuart Meredith Cox of Williamsburg, Va., and the late Lieutenant Colonel Cox, USA.

Miss Stubblebine, a graduate of Hood College, is associated with Merck Sharp & Dohme International in New York City. Her fiancé, who is a graduate of the USNA, is completing advanced Naval Aviation training at New Iberia, La.

An early Fall wedding is planned.

BRINCKERHOFF-DOUGHERTY—Mr. and Mrs. Carlton Dougherty of Denville, N. J., announce the engagement of their daughter, Laura Tait, to 2d Lt. Gilbert D. Brinckerhoff, son of Col. (USA) and Mrs. Gilbert G. Brinckerhoff, Jr., of Boston, Mass., where Colonel Brinckerhoff is PMS&T at the Massachusetts Institute of Technology.

Miss Dougherty is a senior student at the Richmond Professional Institute, where she is studying Occupational Therapy. Her fiancé, a graduate of Lafayette College, is now doing graduate work in Meteorology at MIT.

A Fall wedding is planned.

Gray Ladies Capped At Brooke GH

The American Red Cross at Brooke General Hospital, Ft. Sam Houston, Tex., graduated Gray Ladies and staff aides last week and awarded Mrs. Miriam Belzons a five-year pin. Service stripes for 100 hours of service were presented to 13 volunteers.

Receiving caps as Gray Ladies were Mesdames John Ackerman, Cathy Artis, Roberta Frus, Gloria Lauterbach, Patricia Miller and Verlene Pryor.

New staff aides in the first class to be trained at Brooke Army Medical Center are Mesdames Joan Ahern, Betty Guttendorf, Mary Jane Marazzini, Mary Stowell, Margaret Watson and C. K. Wingo.

Those receiving stripes were Mesdames J. A. Arronge, Miriam Belzons, Josephine Clark, Thomas Johnsons, Jr., J. D. Kinsler, Connie Marmion, Lorraine Fryar, Beulah Mills, Rose Neutze, Maudine Toland, and Peggy Ziegler and Miss Eva Thallman and Miss Sylvia Charles.

Thomas Deely, President of the Bexar County American Red Cross Board, presided at the ceremony. Col. Earl A. Richhart, Executive Officer of the hospital, spoke. Lt. Col. Dorothy L. Seymore, Assistant Chief Nurse, capped the students; Mrs. John Stevens, Chapter Gray Lady Chairman, presented the pins; and Mrs. Virginia Heintzleemann, staff aide chairman for the hospital, awarded certificates. Chaplain (Lt. Col.) Roger D. Russel gave the invocation and benediction.

BRIGANCE-KING—In an afternoon ceremony at St. Alban's Episcopal Church, Washington, D. C., 7 May, Miss Patricia King, daughter of Col. (USA-Ret) and Mrs. Harrison King of 4623 Kenmore Dr., Washington, D. C., became the bride of 2d Lt. William Bryant Brigance, son of Mr. and Mrs. John Carl Brigance of Omaha, Nebr.

Attended by Miss Hulit Pressley, Miss Caroline Colipits and Mrs. John Lynch, the bride was given in marriage by her father. Capt. Robert Martin, USMC, was best man for the bridegroom.

Mrs. Brigance, a graduate of Mt. Vernon Seminary and Colby Junior College, is the granddaughter of Mrs. William H. Cowles and the late Col. James O'Hara, and of Mr. and Mrs. W. Harry King of Silver Spring, Md. Her bridegroom, now serving with the Marine Corps, is stationed at the Naval Air Station, Pensacola, Fla., where he and his bride will be at home after 25 May. He is a graduate of Dartmouth College.

TINSLEY-PETERS—Col. (USA) and Mrs. Robert E. Peters of 2006 Columbia Pike, Arlington, Va., announce the marriage of their daughter, Barbara Carol, to 2d Lt. James Hager Tinsley, USMC, in a morning, double ring ceremony at the U. S. Naval Chapel, Washington, D. C., 16 April. The bridegroom is the son of Col. (USMC) and Mrs. James H. Tinsley of Del Mar, Calif.

Given in marriage by her father, the bride had as her maid of honor, Miss Roberta Hoveland, and Miss Mary Margaret Tinsley, sister of the bridegroom, as bridesmaid. Capt. Richard R. Hull was best man and ushering were 2d Lt. Edward Gibbons and Mr. Theodore Wieseman.

Mrs. Tinsley is a graduate of Vanderbilt University and her bridegroom is USNA '59.

—Continued on next page

BERLIN ELECTION

Mrs. Louise L. McGill, wife of Maj. Allan C. McGill, Berlin Command Information Officer, is the new President of the American Women's Club of Berlin.

She succeeds Mrs. W. O. Anderson.

Also elected were Mesdames Earle A. Cleveland, Vice President; Gene Wolfe, Secretary; H. O. Wright, Assistant Secretary; Freeman Bates, Treasurer, and Lee Brown, Assistant Treasurer.

Greyer's Will Stay In Raleigh Home

Col. Charles P. Greyer, USA-Ret, former Advisor with the North Carolina Army National Guard, and Mrs. Greyer, the former Martha McClelland Stevens of Houston, Texas, plan to continue their residence at 3116 Glenwood Avenue, Raleigh, N. C.

Club Reports

The Women's Club of the National War College met for one of the last luncheons of the season 4 May at the Officers' Club, Ft. McNair. For its guest speakers, the Club was fortunate in having the husband and wife team of Harry and Bonaro Overstreet who discussed "Communism," a subject covered in their recent best-seller "What We Must Know About Communism." The Overstreets have recently returned from a trip around the world, gathering material for a new book, on which they are now working, "Communism in the Khrushchev Era."

The luncheon was in charge of the Air Force wives at the NWC, with Mrs. Vito S. Pedone as Chairman, and Mrs. Maurice L. Martin as co-Chairman. Honor guests were Mrs. Truman H. Landon, wife of the deputy Chief of Staff for Personnel, U. S. Air Force, and Mrs. J. Stanley Holtoner, wife of Maj. General Holtoner, Assistant to the Director of Defense Research and Engineering in the Department of Defense.

Representatives of nine of the Navy Wives Clubs of America, North Eastern Region, met last week at the Naval Air Station, Brunswick, Me.

Attending were: Eleanor Roosevelt NWC #37, Washington, D. C.; Lakehurst NWC #193, Lakehurst, N. J.; Nantucket NWC #169, Nantucket, Mass.; M. F. Shepherd ADC NWC #139, Philadelphia; Naval Suburbanites NWC #132, Brookline, Mass.; Dolphins NWC #134, Kittery, Me.; Quonset-Davisville NWC #157, Wickford, R. I.; Thames NWC #130, New London, Conn.; and Patuxent NWC #101, Patuxent River, Md.

The Rocky Mountain Arsenal Officer's Wives Club held a luncheon with an international motif at the Officers' Open Mess, recently when tables were decorated to represent different countries.

Hostesses were Mesdames Raymond Hampton and Paul Jones, Australia; Lawrence Dellinger, Hawaii; Leland Shannon, Trieste; William Larkin, Edward Scott and Harry Kurth, Germany; Watts Clark and Americo Spigarelli, France; Richard Baldwin and Julio Sedarivera, Puerto Rico and Panama; Artie Angelo and Robert Arnerberg, Japan; J. R. LeRoy and Kelly Paull, Alaska; John Lund and Albert Rock, Austria and England.

The honor guests at the affair were Mesdames S. L. R. McNichols, wife of the Governor of Colorado; Walter Koch, wife of the Civilian Aide to the Secretary of the Army for the State of Colorado; John F. Bohlander, wife of the Commanding General, Fitzsimons Army Hospital; Joe Moffitt, wife of the Commanding General, Air National Guard; J. M. Chappell, wife of the Commanding General, Air Reserve Records Center; R. C. Zalesky, wife of the Commanding Officer, Colorado Military Sector; and William White, wife of the Senior Advisor, U. S. Marine Corps Training.

Weddings and Engagements

From preceding page—

COLLINS-NUTTER—Mr. and Mrs. C. Arnel Nutter of Moorestown, N. J., announce the marriage of their daughter, Joan Eleanor, to Lt. Samuel Pickens Collins, jr., USA, son of Brigadier General (USA-Ret) and Mrs. Collins, of "Windyly," 508 Chester Ave., Moorestown, 23 April at Trinity Episcopal Church, Moorestown.

The bride had Miss Diane Johnson as her maid of honor, and Mrs. Leo McChesney, Mrs. William Powers, jr., her sisters, Miss Anna Belle Collins, sister of her bridegroom, with Misses Barbara Ruth, Francene Fenn and June Schneider as bridesmaids, Little Miss Susan E. Powers was flower girl and Master James M. McChesney was ring bearer for their aunt, Lt. Mahlon Kirk, V, was best man, and ushering were Lts. Robert Bunker, Philip Pryor, George Lawton, Marius Sigurski, Claude Fernandez and David Corderman.

Mrs. Collins attended Skidmore College and her husband is USMA '58.

Lieutenant Collins and his bride will make their home at Ft. Bragg, N. C.

WILSON-O'NEILL—Maj. and Mrs. Milton H. Parnelle of Ft. Benning, Ga., announce the engagement of their daughter, Miss Sally Ann O'Neill, to Cadet Gene Raymond Wilson, USMA, son of Mr. and Mrs. Harold S. Wilson of Cheyenne, Wyo.

Miss O'Neill attended Auburn University in Alabama, where she was a member of the Delta Zeta sorority. Her fiancé, a member of this year's graduating class at the Military Academy, will be commissioned in the Artillery.

The wedding is planned for 9 June at the Cadet Chapel, West Point.

GLYNN-HAMRICK—Miss Donna Lee Hamrick, daughter of Col. (USA) and Mrs. William A. Hamrick, was married to Lt. Michael George Glynn, 7 May at the Patrick Henry Village Chapel, Heidelberg, Germany, in an afternoon ceremony. The bridegroom is the son of Mr. and Mrs. James P. Glynn of Port Jefferson, N. Y.

Given in marriage by her father, the bride chose Mrs. Harvey Snyder as her matron of honor and little Misses Nancy Moore and Louise Snyder as flower girls. Capt. James S. Fields served as best man and ushers included Lts. Harvey Snyder, William Alexander, Peter Knapp and Capt. R. A. Cannamela.

Following a wedding trip to Vienna, the couple will be at home in Heidelberg.

EDWARDS-ALLISON—Col. (USA-Ret) and Mrs. Daniel W. Allison of 1087 Macon Ave., San Jose, Calif., announce the marriage of their daughter, Andrea Lee, to Mr. Kenneth Westbrook Edwards, son of Mr. and Mrs. P. A. Edwards of Dearborn, Mich., in an afternoon ceremony at Trinity Church, Princeton, N. J., 5 March.

Given in marriage by her father, the bride was attended by her sister, Mrs. Herbert M. Cooper of College Park, Md., as matron of honor, and by her niece, little Miss Pamela M. Cooper, as flower girl. Mr. James E. Hardy served as best man and Mr. Ralph T. Edwards, brother of the bridegroom, ushered.

Mrs. Edwards attended Joliet Junior College in Illinois, and Westminster Choir College at Princeton. The bridegroom, a graduate of the University of Michigan, is a graduate student and a research assistant at Princeton, while working toward a Ph.D. degree in physics.

LEWIS-BROWN—St. Cornelius Chapel, Governors Island, N. Y., was the setting 7 May for the afternoon ceremony uniting in marriage Miss Constance Ann Brown, daughter of Col. (USA) and Mrs. Percival Stanley Brown of Quarters 112-C-2, Governors Island, and Mr. Frank Sherwood Lewis, son of Mrs. Ruth Day Lewis of Chapel Hill, N. C., and Mr. Gordon Lewis, Cuernavaca, Mexico. The Reverend Dr. Richard W. Day, uncle of the bridegroom, officiated.

The bride chose her sister, Miss Sylvia L. Brown, as her maid of honor, her cousin, Mrs. Edgar H. Schein, Misses Gladys Jordan and Ferne Johnson as her other attendants. Mr. Gordon B. Wilson served as his brother's best man and ushers included Mr. J. W. Edwards, jr., Mr. W.

McC. Henderson and Cadet Richard S. Seaward, USMA.

Mrs. Lewis attended the Woman's College of Duke University. Now associated with the Electric Boat Division of General Dynamics Corp., her husband attended Hobart College and is a graduate of Duke University. He and his bride will make their home at Mystic, Conn.

Club Notes

From preceding page—

The Woman's Club of Fort Benning climaxed its year's activities with the election of officers for the coming season.

Those elected were Mrs. B. G. Teeters, president; Mrs. C. D. Sterner, first vice president; Mrs. J. H. Holcombe, second vice president; Mrs. B. E. Small, treasurer; Mrs. W. D. Guinn, recording secretary; Mrs. James D. Anders, corresponding secretary, and Mrs. G. M. McFadden, custodian.

Installation of new officers was scheduled for 11 May when the Woman's Club held its final meeting of the season.

Some 50 members attended the Redstone Arsenal Officers' Wives Club luncheon recently at the Officers' Club, when the speaker of the day was Capt. Joel Eakins, the Arsenal's pediatrician, who discussed "Preventive Pediatrics."

Mrs. R. G. Heller was chairman for the affair, and was assisted by Mesdames R. H. Lee, D. H. Jones, E. A. Rudd, David Robinson, R. H. Bassett, Jr., S. R. Pearson, L. P. Jeck, jr., S. J. Dobbs, Oliver Putman, R. A. Bergman, S. R. Sheridan, M. J. Herbert, S. M. Seltzer, M. A. Sulkowski, W. G. Trainer, S. W. Curtis, T. F. Gannon, C. C. Rollins, L. M. Harvey, R. C. Skillinger and R. S. Macy.

The gymnasium of the USNH Officers' Club, Bethesda, Md., was the setting for the Navy Doctors' Wives Club benefit luncheon and fashion show recently, which some 400 members and guests attended. Headed by Mrs. Marshall M. Olson and Mrs. Edward J. Rupnik, the decorations committee transformed it into a festive stage for various bazaar booths. These were under the direction of Mesdames Byron Castell, Lloyd B. Shone and Calvin B. Galloway, to which all Club members donated their time and skills.

Mrs. Robert O. Canada, Club President, presided at the affair and introduced the special guests, who included Mesdames Thomas Gates, William B. Franke, Fred Bantz, Arleigh Burke, Charles C. Kirkpatrick, Bartholomew W. Hogan, Lamont Pugh, William Druckemiller, Joel Boone, Bruce Easley, Luther Sheldon, David W. Stonecliffe, Dudley Hale, Charles P. Cabell and Ralph Canine.

Proceeds from the affair will go to the Soldiers, Sailors, Marines & Airmen's Club, the Navy Doctors' Wives Nursing Education Scholarship Fund and a camping fund for boys and girls aided by the Club.

Mrs. Chartier Will Take Navy MSC Wives Gavel

Mrs. Armand P. Chartier will be installed as president of the Navy Medical Service Wives at the Club's 19 May luncheon at the National Naval Medical Center Officers' Mess, Bethesda, Md.

Also to be installed will be Mesdames Raymond B. Rafferty, First Vice President, T. A. Schwartz, Second Vice President, James D. McIlraith, Recording Secretary, Howard P. Noble, Treasurer, Harold J. Civiello, Social Secretary, Joseph P. VanLandingham and James P. Holliday, Board Members.

MISSILE MISS

Newly promoted to lieutenant colonel at the Army Ordnance Guided Missile School, Redstone Arsenal, Ala., is Elizabeth H. Branch.

Head of the Personnel and Administration Division and Secretary of the School, she is the first WAC officer to head a division there. During the past seven years, the School has trained almost 20,000 men from the Army, Navy, Air Force, Marine Corps, and 12 Allied nations.

DEGREE AT OSAN

Col. John O. Moench, 314th Air Division at Osan AB, Japan, Director of Plans and Programs, has received a Master's Degree in Political Science from the University of Maryland's Far East Division.

He was the highest ranking man to receive his degree from the University's President, Dr. Wilson H. Elkins, at a recent convocation in Tokyo.

General's Daughter Caps A General's Daughter

At the annual Cap and Gown ceremony for the Graduating Class of Mount Vernon Junior College in Washington, D. C., Miss Imogene Shannon Young, daughter of Brig. Gen. and Mrs. Millard Chester Young, USAF, was "capped" by Miss Dodie Schriever, daughter of Lt. Gen. and Mrs. Bernard Schriever, USAF.

Miss Young, who was the last American debutante to be presented to Queen Elizabeth at Buckingham Palace while her father was stationed with NATO Forces in Europe, will graduate 30 May. Miss Schriever, whose father is Commander of Air Research and Development, is a member of the Class of 1961 at the College.

Mrs. Sparling Is Elected

The Letterkenny Ordnance Depot Ladies' Club at Chambersburg, Pa., has elected Mrs. Marjorie Sparling as President. Other new officers are Clara Davidson, Vice-President; Lillian Imbach, Secretary; and Kay Fabritius, Treasurer.

Barksdale Greets Newcomers

Newcomers to Barksdale AFB, La., were welcomed at a recent coffee and business meeting of the Officers Wives Club. They are Mesdames H. F. Engelbach, M. G. Garcia, N. L. Glozer, D. A. Hurlbut, R. J. Jones, A. K. Leatherwood, R. A. Timmons, R. J. Town, J. W. Sanges, C. E. Meeks, E. M. Osanger, J. G. Ferrell, D. W. Irvin, and R. E. Starkey.

NEW ALFA CofS

Capt. Preston N. Shamer, has relieved Capt. L. E. DeCamp, as CofS and Aide to Adm. John E. Clark, Commander Hunter Killer Force Atlantic, Commander Task Group ALFA, and Commander Carrier Division Sixteen.

Captain Shamer, USNA '39, has been Assistant CofS for Operations and Plans in Task Group ALFA since last July. He resides at 1210 S. Fairwater Drive, Norfolk, with his wife Elizabeth and children George, Elizabeth, and Edward.

Captain Shamer's father is Captain George P. Shamer, USN (Ret.).

Captain DeCamp will command the aviation supply ship Jupiter at Yokosuka, Japan.

Marines Create Course For Warrant Officer

A new course of training for new Leatherneck warrant officers holding administrative MOS's has been established at the Marine Corps Recruit Depot, Parris Island, S. C.

Approximately 26 warrants with administrative military specialty numbers have been ordered to the Depot for an accelerated four-week course in office procedures and training as unit adjutants or personnel officers beginning 11 July.

What's Ahead

The 1960 All-MATS Rifle and Pistol Matches will be held at McGuire AFB, N. J. from 16 May through 4 June. Dates for the small arms marksmanship competition are: Pistol, 16-21 May; High Power Rifle, 23-28 May; and Smallbore Rifle, 30 May-3 June.

The high scoring competitors in these matches will represent MATS at the All-Air Force Rifle and Pistol Championship matches at Lackland AFB, Tex. in June. The schedule for the USAF matches is: Pistol 6-11 June; High Power Rifle, 13-22 and Smallbore Rifle 27-30 June.

The 12th Armored Division (Helicat) Association will hold its 14th annual reunion at the Barringer Hotel, Charlotte, N. C., 4-5-6 August, John T. Williams, New Castle, Pa., president of the group announces. Details may be obtained from Lawrence E. Mintz, 20020 Snowden Avenue, Detroit 35, Mich., executive secretary.

The Allied Control Commission for Hungary (1945-1947) will hold its reunion at Savoy Hilton, New York City, 3 July. Contact Maj. M. W. Morton, 862 Clower Street, San Antonio 12, Tex. for details.

The Third Armored Division association will hold its annual reunion 28-30 July at the Netherland-Hilton Hotel, Cincinnati, Ohio. Information may be obtained from the Association at 38 Exchange Street, Lynn, Mass.

The newly formed USS IDAHO (BB-42) Association has announced it will hold the third annual re-union of the battleship's shipmates at Norfolk, Va., 17-19 June. Former crew members may contact the Association at P. O. Box 8048, Norfolk 3, Va.

S. L. A. MARSHALL, Military Editor of the Detroit News, will be guest speaker at the 39th annual reunion of the 2d Infantry Division Association, 21-23 July in Columbus, Ga.

B/G Salmon Retires; Son Serves As Aide

Brig. Gen. Ronald D. Salmon, Commanding General, MCAS El Toro, Calif., and Marine Corps Air Bases, Western Area, ended a 30-year career 1 May.

He will be succeeded at El Toro by Col. Thomas J. Noon, Air Station Chief of Staff.

The General's son, 1st Lt. Michael D. Salmon, assigned to MCB Camp Pendleton, served as his aide during retirement ceremonies.

General Salmon, USNA '30, will reside in the Washington, D. C., area.

L/Col. Fishburne Reports To Pentagon

Lt. Col. Charles C. Fishburne, for the past three years Professor of Air Science at the University of Vermont, will report to the Pentagon this summer for duty in the International Affairs Division of the Directorate of Plans. The Fishburnes will move to their new home at 706 Tall Oak Court, Sleepy Hollow Woods, Annandale, Va., the latter part of June.

Action In The Reserve Forces

More than 97,000 National Guardsmen and Army Reservists from the eight-state First Army area will train at Camp Drum, N. Y., this summer—the largest number ever to undergo summer unit training at the sprawling New York country military post. Last summer's total was 75,470.

This summer's training program at Drum will be divided into seven periods, each of two weeks duration. In previous years there have only been five training periods.

Camp Drum's commander is Col. Joseph A. Remus.

One-hundred Marine officers of the Air Reserve Training Detachment and Organized Marine Corps Reserve squadrons at the Naval Air Station, South Weymouth, Mass., have joined to form the largest charter ever presented within the Marine Corps Reserve Officers Association. Brig. Gen. John L. Winston, USMCR, National President of MCROA, presented the charter to the Tripoli Chapter.

The Marine Corps Reserve Officers Association was formed in 1926 as the professional organization of Marine Corps Reserve Officers, dedicated to serve and help preserve the security of the United States in many ways.

The Naval Reserve Training Facility and Naval Militia Armory at Dunkirk, N. Y., was dedicated 7 May by VADM. Charles Wellborn, Jr., Eastern Sea Frontier and Atlantic Reserve Fleet Commander and Commandant, Third Naval District. The electronic training facility is jointly supported by the Federal Government and the State of New York.

Col. Harry Auspitz, Jr., has been assigned to the Fourth Army Reserve Forces Section at Ft. Sam Houston, Tex., as the section's Deputy Assistant Chief of Staff. He came from Korea where he was Army Advisor to the I ROK Corps for the past 13 months. With his wife, Jean Mae, and daughter, Mary Jean, five, Colonel Auspitz lives at 431 Graham Road, Fort Sam Houston, Tex.

Cdr. A. William Evans, USNR-R, president of the Missouri department of the Reserve Officers Association of the United States, will preside over the 1960 Missouri ROA convention, 7 and 8 May in the Officers' Open Mess at Fort Wood, Mo.

Col. A. E. Garoni, Fourteenth Air Force CofS at Robinson AFB, Ga., for the past five years, received the Tennessee Distinguished Service Ribbon for his service to the Tennessee Air National Guard. The award was presented by Maj. Gen. Howard Butler, CofS for Air, Tennessee Air National Guard prior to Colonel Garoni's departure for a new assignment in the Pentagon.

Marine Board Picks 28 For Warrant Ranks

A Marine Corps selection board has named 16 active duty Reserve chief warrants and 12 warrants for advancement to the next higher pay-grades.

Included in the total are three to CWO-4, 13 to CWO-3 and 12 to CWO-2.

In making selections, the board, headed by Col. William T. Herring, Head, Promotion Branch, Marine Headquarters, had authorization to pick four CWO-4's, 15 CWO-3's and 13 CWO-2's.

Names and ranks of the selectees are:

To CWO-4

Nevin, Donald J Szabo, Alex L
Ring, Harry G

To CWO-3

Carl, Floyd C, Jr Pifer, Kenneth C
Davis, Bernley S Slattery, Richard A
Dixon, Ballard F, Jr Shelton, Otey H
Gibson, Paul R Studt, Norman C
Hughes, Edward W Throckmorton, Roy E
Hood, Henry Writer, Herbert A
Johnson, Chester T

To CWO-2

Augustus, Charles R Lohmiller, George R
Delcke, Robert W Mattern, Gabriel D
Duncan, Stewart N O'Connor, Joseph J
Fagot, Leonard J Quigley, T W, Jr
Humphrey, Waldo D Sorenson, Raymond R
Linton, Dolores Ann Vais, James A

Col. D. Harold Byrd, CAP, prominent Dallas industrialist and one of the original founders of Civil Air Patrol in the pre-Pearl Harbor days of 1941, has announced his retirement as National Board Chairman and active CAP member.

Col. William C. Whelen, CAP, is the new Chairman, The Nashville, Tenn., construction engineer and owner-president of Whelen Construction Company, Inc., has been vice chairman since April 1959.

Responsibility for inspection and supervision of training of some 40 Air National Guard fighter squadrons will pass from the Continental Air Defense Command to the Air Defense Command 1 July. A dozen squadrons already are standing alerts in the air defense system, and all are earmarked for specific roles in air defense.

Marine Info Chief Gets EAD Contract

Col. Donald R. Nugent, Director of Marine Corps Information, heads a list of 72 Reserve officers named for extended active duty. His tour has been extended to 1 September 61.

The list includes three lieutenant colonels, two majors, eight captains and 58 first lieutenants.

In the by-rank listings below, officers whose names are preceded by day, month and year designations have been issued SWAG (Special Written Agreement) contracts. Those whose names do not carry a day-of-the-month notation have been awarded EAD (Extended Active Duty) tours.

Lieutenant Colonel—30 June 61, John H. Magruder, III, and Thomas McDonald, Jr.; 1 Aug 62, Lily H. Gridley.

Major—30 June 61, Wilson L. Cook; 1 June 62, Charles F. Stansbury.

Captain—30 June 61, David E. Schwult and John G. Schmitz; 30 June 62, James W. Lazzo; 30 June 63, William A. Donald, Francis L. Birou, Jr., and Glenn W. Timmons; 31 Aug. 63, Robert E. Short; and 30 June 64, Frederick R. Jerrett.

First Lieutenant—Sept. 60, Michael W. Murray; Dec. 60, Donald H. Barker; May 61, Vincent L. Falzaron; June 61, Joe P. Joiner, Goethe W. Aldridge, Jr., and John J. Ringler; 30 June 61, Fredric W. Frost, III, Ernest E. Jordan, Ronald C. Nursey and Joseph S. Marter, Jr.; July 61, James E. Thomas; 31 Aug. 61, Melvin J. McIntyre.

Also Sept 61, Marvin A. Westphal, John A. Hellriegel and Robert E. Loughridge; 1 Sept 61, John L. Nolan; Nov 61, Ronald L. Dubinsky; 31 Dec 61, Jack D. Ruland; Jan 62, Russell D. Spies; 31 Jan 62, Edward J. Hayes; April 62, Gerald M. O'Neal; 30 June 62, Bruce A. Martin, Richard D. Meason and Arthur S. Piper; July 62, John A. Rooke, Joseph S. Andre, John T. Cline, Lloyd K. Davis and Harold G. Haffner; 31 July 62, Wyatt M. Huddleston and Thomas A. Moher; 30 Sept 62, Richard V. Gaines and Donald A. Langrock; Oct 62, Edwin S. Kowalczyk; 30 Nov 62, Stanley N. Collins, Jr.

Also March 63, Michial W. Nunn; 30 June 63, Richard J. Molnar; 31 July 63, Walter M. Bush; 31 Aug 63, Joseph R. Civelli; 1 Sept 63, David M. Martell; 30 Sept 63, Victor E. Barris, Anthony C. Huebner and Donald J. Meskan; Oct 63, Jack C. Owens; 31 Oct 63, Terrance M. Bottesch; 30 Nov 63, Floyd C. Lewis and William J. Shriner; Jan 64, Donald J. Roman; 31 Jan 64, Anthony T. Common; 30 June 64—Cornelius F. Behan and 30 June 65 Billy D. Womack

Korea To Ft. Sam

Lt. Col. Nicholas S. Strider, former budget officer of Eighth U. S. Army in Korea, has been assigned to Fourth U. S. Army headquarters, Ft. Sam Houston, Tex. He will be chief of the Accounting Policy and Systems Division, Finance and Accounting Section.

Colonel Strider's wife, Enid, resides at 709 St. Clair Ave., Belleville, Ill., with their four children, Michael, 16, Steven, 13, Scott, 8, and Christine, 5.

Col. Max Pitney Is C. O. Of Missile Command

Col. Max L. Pitney is the new C.O. of the 2d U. S. Army Missile Command, Ft. Carson, Colo., succeeding Col. William C. Garrison who has gone to Continental Army Command, Ft. Monroe, Va.

Colonel Pitney is former CofS of the STRAC unit.

Baird, William E, 2d MAW.
Jacobi, "H" L, Seattle, Wash.

To 2d Mar Div

Ratdorff, Richard W, 2d MAW.
Tant, St Clair, HqMC.

To 3d Mar Div

Haehl, Robert J, 5th MCRRD.
Lauffer, Robert G, 8th MCRRD.

To 1st MAW

Idier, Basil T, Kingsville, Tex.
McFarland, David W, Wash, DC.

To 2d MAW

Porter, Mervin B, LanForTraUPac.
Kelley, Eugene W, AFSC NorVa.

To 3d MAW

Coles, Thomas M, 1st MAW.
Bourret, Arthur K, NWC, Npt.
Amerline, Richard R, Olathe, Kans.

To Air Univ, Maxwell AFB, Ala

McDonald, Jay E, NAS, CorpC.
Mitchell, William P, NATTC, Jax.
From 2d MAW:

Laing, Robert B

MAJOR

Vance, Robert N, HqMC, to 1st MAW.
Creel, William B, 1st Mar Div, to NROTC Unit, Tulane Univ, New Orleans.
Meyer, Edward B, 1st Mar Div, to NROTC Unit, Univ of Minn, Minneapolis.
Scharfen, John C, 2d Mar Div, to NROTC Unit, Univ of Missouri, Columbia.
Landrigan, James M, 2d Mar Div, to NROTC Unit, Tufts College, Medford, Mass.
Gibson, Gerald W, San Francisco, to 1st Mar Div.
Haynes, George A P, Monterey, Calif, to HqMC.
Woodruff, Paden E, jr, Taiwan, to MCS Quant.
Hoffman, Robert C, Los Angeles, to 3d MAW.
Turner, Kenneth E, USNA Anna, to MCS, Quant.
Vuilleumot, Monterey, Calif, to USN Rad Def Lab, Hunters Pt, Shipyard, S Fran.
Jernigan, Curtis D, 2d MAW, to LanForTraUPac.

Spencer, Donald E, Tsouing, Taiwan, to MCRS Birmingham, Ala.
Kapetan, Nick J, Chicago, to 3d MAW.
Limberg, Robert D, Wash, DC, to HqMC.
May, Donald L, TACRON-11, to HqMC.
Mooney, Thomas G, 1st Mar Brig, to 3d MAW.
Snapper, John N, 1st MAW, to MCRD, S Diego.
From MCS, Quant, to Station Indicated
Storm, William W, 3d, NROTC Unit, Univ of Tex, Austin.
Kearns, Timothy J, George Washington Univ, Wash, DC.
Nesbitt, Cleon E, 3d Mar Div.
Conroy, John F, 2d Mar Div.
Doering, John H, jr, COMELEVEN.
Kaler, Joseph, jr, ForTrps FMFPac.

CAPTAIN

Thomas, Hasil S, MCRD S Diego.
Thatcher, John L, 1st MAW, to Utah State Univ, Logan.
Buschmann, Conrad P, S Diego, to Litton Industries, Conoga Park, Calif.
Ellery, Thomas G, Forest Park, Ill, to 9th MCRD.
Robinson, Charley, MCB CamPen, to MCSA Phila.
Roder, Henry W, MCS Beaufort, SC, to MAG-32.
Smith, Lloyd A, HqMC, to MCB CamPen.
Jones, Chester T, 6th MCRD, to MCRS, Raleigh, NC.

To 1st MAW

Rocheleau, Adolph A, HqMC.
Callant, Robert L, NorVa.

To 2d MAW

Lindlie, James L, Marietta, Ga.
Duphiney, Randall W, 1st MCRD.

To 3d MAW

Bloomer, William A, NAS, CorpC.
Stewart, Robert F, 1st MAW.

To MAG-26

Hadden, Don H, Dallas, Tex.
Hagen, Jerome T, 2d MAW.

1ST LIEUTENANT

McKellar, Charles W F, 1st Mar Div, to MCAS, Kaneohe Bay.
Watson, Jac D, NATTC, Mfs, to NAAS, Kingsville, Tex.
Bierley, John C, 3d Mar Div, to MCB CamLej.
Walker, Edwin H, 4th MCS, Quant, to For Trps FMFLant.

14 May 1960 (Vol. 97, P. 1051)

Army Navy Air Force Journal 27

Medical Notes In The Armed Services

The Army Medical Service Corps, 3,500 strong, will celebrate its 43d anniversary 18 May. While they represent only 4% of the total strength of the Army, MSC officers hold 30% of the Army's PhD's and 8% of its Master Degrees.

Col. Roy D. Maxwell is MSC Chief.

A two-week short course in Advanced Military Nursing will be held 16-27 May at the Army Medical Service School, Brooke Army Medical Center, Ft. Sam Houston, Tex., for approximately 60 senior nurses. Course Director will be Lt. Col. Edith L. Shutt, Nursing Instructor at the School.

The Historical Unit of the Army Medical Service has completed 15 of a planned 48-volume medical History of World War II.

Titles now available are: "General Surgery," "Hand Surgery," "Neurosurgery"—Vol. I and Vol. II, "Ophthalmology and Otolaryngology," "Orthopedic Surgery, ETA," "Orthopedic Surgery, MTO," "Physiologic Effects of Wounds," "Vascular Surgery," "Cold Injury, Ground Type," "Dental Service," "Environmental Hygiene," "Personal Health Measures and Immunization," "Communicable Diseases" and "Hospitalization and Evacuation, Zone of Interior."

Commanding officers of medical units are authorized to requisition missing copies through the usual Adjutant General publications channels. Commanding officers of medical units are likewise authorized to requisition additional individual copies in accordance with the needs of specific specialties of medicine and surgery represented on their staffs.

Copies for personal use may be purchased from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Cdr. A. P. Chartier, USN, has reported for duty as Administrative Officer and Aide to the Commanding Officer of the National Naval Medical Center, Bethesda, Md. relieving Lt. R. J. Hanavan, MSC, U. S. N.

Commander Chartier was formerly Executive Assistant for Administration to the Commanding Officer of the U. S. Naval Hospital at the Medical Center.

Lt. Hanavan's new duty assignment will be as Administrative Assistant to the Senior Medical Officer, U. S. Naval Shipyard, Pearl Harbor, Hawaii.

An Army-wide Aeromedical Symposium will be held at the San Carlos Hotel, Pensacola, Fla. 7-8-9 June. Sponsored by the Army Board for Aviation

Rogers, Charles O Hargrave, B.S. jr
Sparling, Norman E Kellum, William C
McCollum, Jack F Bookhart, H U, jr
Read, Max R Bullock, Harry H
Merker, Donald C

Captain

Copeland, Frank E, to tem p disab ret list.

Chief Warrant Officer

Davis, W-4 Perry W Gottsponer, W-3 Leo J
Marangl, W-2 Max A Green, W-3 James E

Accident Research, the symposium is designed to orient staff surgeons and hospital commanders on aeromedical factors in aircraft accidents. Approximately 100 Army Medical officers are expected to attend.

Col. William E. Jennings, Chief Veterinarian at Fifth Army Headquarters, Chicago, was awarded an honorary degree from the Free University of Berlin, by its Dean, Dr. Fritz Preuss, at the Seventh International Congress of Anatomy in New York City. Colonel Jennings received the honor for his contributions to veterinary education.

Col. Renaldo G. Belanger, MSC, has been named Chief of the Supply Division in the Army Surgeon General's Office. He is the second Medical Service Corps officer ever to head that division. The first was Brig. Gen. Edward Reynolds, Chief of Army Surgeon General's Supply Service during World War II.

Colonel Belanger succeeds Col. Theodore M. Carow, MC, who will command the U. S. Army Hospital at Ft. MacArthur, Calif.

Colonel and Mrs. Belanger, the former Miss Ruth Hatley of Winthrop, Mass., live at 5308 Clifton Street, Alexandria, Va.

Capt. Clifford E. Allen, DC, USN, Staff Dental Officer, Commander in Chief, Atlantic Fleet, has retired after more than 30 years service. Among his assignments he numbers service as Assistant Naval Attache and Assistant Naval Attache for Air at the U. S. Embassy in Moscow, and in the War Plans Branch of the Bureau of Medicine and Surgery.

Army Flue Shots Slated

Influenza vaccine will be administered during October to all Army personnel on active duty. Personnel who enter upon active duty prior to 1 August 1961 including those entering active duty for training periods in excess of 30 days, will receive the vaccine as soon as practicable after entry.

BUSANDA Changes

Radm. Thomas A. Long, SC, Assistant Chief, Bureau of Supplies and Accounts (Transportation and Facilities), will succeed Radm. Leland P. Kimball, jr., SC, Deputy and Assistant Chief of BuSanda, in July. Admiral Kimball takes command of the Oakland, Calif., Naval Supply Center in August as relief for Radm. Ralph J. Arnold, SC, who retires 1 July. Admiral Long's replacement has been named.

Damon Runyon Fund Makes Grant To AFIP

A grant of \$8,400.00, from the Damon Runyon Memorial Fund for Cancer Research, has been presented to Dr. V. S. Waravdekar, Chief of the Biochemistry Branch of the Armed Forces Institute of Pathology, Washington, D. C. The grant was presented by Miss Mary Goldsmith, local representative for the Memorial Fund.

Dr. Waravdekar will apply the grant to the investigation of the relationship of the diphosphopyriden nucleotide (DPN) synthesizing enzyme to tumor growth. Dr. Waravdekar, and other investigators, have found that when malignant tissue, cancer, is present in the body, the level of DPN is lower. Also, when the malignancy is surgically removed the DPN level returns to normal.

Miss Goldsmith, a secretary with the International Brotherhood of Teamsters Union, was found to have cancer when she received her employment physical last September. The administering physician at Georgetown University Hospital referred Miss Goldsmith to the Warwick Cancer Clinic. There it was recommended that immediate surgery be accomplished. Following diagnosis of the malignancy, Miss Goldsmith wrote a series of seven articles entitled, "If I Have Cancer," which were widely read in newspapers throughout the country.

M/G Niess Leads Visiting Surgeons On Tour Of Key Air Force Medical Installations

Following completion of the Aerospace Medical Association meeting in Miami 9-11 May, Maj. Gen. Oliver K. Niess, Air Force Surgeon General, conducted a group of 30 distinguished foreign surgeons on a tour of Air Force installations in the U. S.

The group is visiting Patrick Home-stead and Eglin Air Force Bases in Florida, and Randolph, Brooks and Lackland Air Force Bases in Texas.

Project officer for the tour will be Capt. Alfred P. Urquia, USAF, MSC. Other officers accompanying the tour will be Col. George B. Green, USAF, MC, and Lt. Col. Joseph W. Lynch.

Members of the touring party will include:

Canada—Air Commo. A. A. G. Corbet, and Wing-Commander D. O. Coons; Den-

mark—Dr. Johannes Dossing; France—Maj. Gen. Pierre R. Labarthe; Great Britain—Air Commodore William K. Stewart, and Group Captain J. S. Howitt; Greece—Captain D. Soullis; Guatemala—Dr. Marco Antonio Penalonzo; India—Air Commodore B. L. Kapur, and Squadron Leader J. H. F. Manekshaw; Israel—Lt. Col. Michael Lavi; Italy—Lt. Col. Aristide Scano; Japan—Col. Shigeoyoshi Yamamoto; Korea—Col. Won Cheul Kay, Lt. Col. Kwang Yong Lee, Lt. Col. Yong Kook Chol, and Lt. Col. Seung Yun Cho;

Also: Netherlands—Col. H. Stigter; Norway—Col. Olaf Nyby; Philippines—Lt. Col. Vicente G. Javier, and Maj. Manuel B. Ramos; Sweden—Lt. Col. Arne Frykholm, and Capt. Wilhelm von Dobeln; Switzerland—Maj. E. Hardmeier; Taiwan—Maj. Gen. Hsu Chu Li; Thailand—Air Vice Marshal Tragool Thavaravej; Turkey—Lt. Col. Cemal Duman; Venezuela—Maj. Pedro Antonio Humberto Segnina, and Capt. Luis Jose Fernandez; Yugoslavia—Lt. Col. Goyko Kapor.

New AF Stars

Air Force special orders released 4 May announces the promotion that date of Maj. Gen. Ralph P. Swofford, Jr., former Vice Commander of the Air University at Maxwell AFB, Ala., as Commander of Allied Air Forces Southern Europe in Naples with the rank of lieutenant general from 3 May.

Promoted to three-star rank, effective 4 May, was Maj. Gen. Donald N. Yates, former Commander of the Air Force Missile Test Center at Patrick AFB, Fla., who becomes Deputy Director of Research and Engineering (Ranges and Space Ground Support).

The following promotions to brigadier general were announced in 4 May Special Orders, with date of rank in 1960 as indicated:

Cannon, A B, 20 Mar	Adams, M B, 9 Apr
Henley, F S, 21 Mar	Helton, E, 10 Apr
Jennings, A L, 22 Mar	Kight, R T, 11 Apr
Hull, H B, 23 Mar	Culbertson, A T, 12 Apr
Strauss, R H, 24 Mar	Putnam, W B, 13 Apr
Strickland, B A, Jr, 25 Mar	Huston, V G, 14 Apr
Forman, R D, 26 Mar	Dusard, L F, Jr, 15 Apr
Rockwood, R C, 27 Mar	Yancey, W R, 16 Apr
Fellows, R W, 28 Mar	Tibbets, P W, Jr, 17 Apr
Herman, R J, 29 Mar	Meyers, G L, 18 Apr
Andrews, C W, 30 Mar	Crow, R M, 19 Apr
Kieffer, W B, 31 Mar	Lansdale, E G, 20 Apr
Polhamus, D C, 1 Apr	Leonhard, W E, 22 Apr
Caira, L E, 2 Apr	McColpin, C W, 23 Apr
Bromiley, R F, 3 Apr	Smith, R N, 24 Apr
Young, C M, 4 Apr	McGehee, T K, 25 Apr
Taylor, J F, Jr, 5 Apr	Henry, J B, Jr, 26 Apr
Moore, H W, 6 Apr	Burns, R W, 27 Apr
Curtin, R D, 7 Apr	
Richardson, R C, 3d, 8 Apr	

Maj. Bassett Named Chief, OGMS Unit Training

Appointment of Maj. Ralph H. Bassett, Jr. as commander of the Unit Training Center at the U. S. Army Ordnance Guided Missile School is announced by Col. Charles W. Eifler, commandant.

Major Bassett succeeds Lt. Col. Albert G. Cole who departed OGMS recently for an assignment with the U. S. Military Advisory Group in Turkey. Major Bassett had served as Executive Officer of the training center since early 1959.

Major Bassett resides with his wife, Barbara, and their two sons, Charles and Mark, at 2403 Henry Street, Huntsville, Ala.

Buford, Charles T, Jr, BUPERS; to USS AJAX.
Cole, Nathan, Jr, OFC OF JAG NAVDEPT; to NAS JAX.
Crain, Clark E, NASPWNFAC KIRTLAND AFB; to MCAF IWAKUNI.
Duncan, Robert D, CO USS GUIDE; to STAFF CINCPACFLT.
Farmer, Harry C, NROTCU THE RICE INSTITUTE HOU; to AEWBARONPAC.
Garner, James P, FAIRECONRON ONE; to FAETUPAC.
Hauer, Earl W, NAVCOMMSTA SDIEGO; to NAVSECSTA WASHDC.
Heldorn, LAWRENCE H, DESFLOT FOUR TEM; to USS LEARY.
Iacobelli, Rocco F, NAVAIRPAC; to PATRON 42.
Irvin, James K, ALUSNA RANGOON; to MSTSLANTAREA.
Jamroga, Antonia (NC), NAVHOSP CAMPEN; to NAVHOSP OAK.
Kopps, Richard L, NAF CHINA LAKE; to HATRON SIX.
Lockwood, Warren H, AIRANTISUBRON 21; to CARANTISUBAIRGRU 53.
McKeever, James E M, AEWTRAILANT PAXRIV; to NADEVCEEN JOHNSVILLE.
Morel, Albert A, NAVRECSTA NORVA; to UNC/USFORKOREA.
Pendery, William P, UNC/USFORKOREA; to FAIRDEFTRACEN DAM NECK VA-BEACH.
Rawlins, Robert D, NAVNUCLEAR POWER TRAU WEST MILTON SITE SCHNET; to USS THRESHER.
Snead, Leonard A, NAVWARCOL NPT DUINS; to NATESTCEN PAXRIV.
Willey, Oscar S, Jr, AIRFERON 31; to NAV-ENGRAFAC (SHIP INSTAL) NAMATCEN PHILA.
Zettel, Marcus A, AIRANTISUBRON 30; to CARANTISUBAIRGRU 58.

Army Air Defense Commanders Meet

Lt. Gen. Charles E. Hart (center), Army Air Defense Commander, stands for a formal portrait with his regional commanders preceding the recent Commanders' Conference at Colorado Springs. The group, which convenes periodically to review the operational readiness and effectiveness of the Army's forces which are contributed to the continental system of the North American Air Defense Command, are (left to right): Brig. Gen. Robert Hackett, Ft. Totten, N. Y.; Maj. Gen. Robert H. Booth, Ft. Meade, Md.; Maj. Gen. Garrison B. Coverdale, Ft. Sheridan, Ill.; General Hart; Col. Walter F. Ellis, Kansas City, Mo.; Maj. Gen. Edward J. McGaw, Ft. Baker, Calif.; and Maj. Gen. Farmer W. Edwards, Deputy ARADCOM.

AN EDITORIAL SURVEY:

Project Man: A Big Score For The Army

From first page—logistical ramifications of the President's last-minute decision to visit the historic Infantry Center where he had served as a major in 1927 (Army information officers suddenly found it necessary to double the number of press phones but could not say publicly why this was necessary) no military staff can handle more than 650 industrialists, newsmen and general officers, without some anxious moments.

But when all is said and done, it can be safely stated this week that the Army will be much less concerned with the sensitive protests of certain four-star officers who objected to being doubled up in BOQ quarters than it will be concerned with a broader-viewed assessment of Project Man.

In this assessment, the Army will recognize that at Project Man, President Eisenhower and Secretary Gates were impressed greatly with the array of new weapons which they saw on display. Among these, no weapon made a greater impact than the Army's versatile Pershing missile, until now given a relatively restrained Army build-up—possibly for fear that it could go the way of the Jupiter IRBM, namely into operational control of the Air Force.

All those present at Project Man could see that the President was thrilled by the demonstration. There was a break in a firepower program during which he was given an opportunity to speak informally. The President took this occasion to emphasize that Project Man showed the determination of the United States to meet the great challenges it faces from Communist powers. The Commander-in-Chief hit at those who say that Americans have gone soft.

After the President spoke, there was an alternative plan which was to go into effect if he decided then to depart. But the Commander-in-Chief quickly returned to his seat and the second half of the demonstration continued in his presence.

Army men were delighted at the Project Man banquet when Secretary Wilber M. Brucker, declaring that he wanted full recognition for all those who had fought so hard for a strong Army, made it a particular point to call upon General Matthew B. Ridgway, USA-Ret., to rise for the audience's applause. The former Chief of Staff, who had his rough moments with the Administration, obviously was pleased—as were the other Army people—by the Secretary's thoughtful gesture.

Secretary Brucker, in his prepared address, made two important points. He said: 1) that the Army represents the Nation's most important strategic weapon system, and 2) he warned that in considering Soviet disarmament talk, adequate consideration must be given to the growing strength of Communist China. Other Army spokesmen, in future weeks, can be expected to reiterate these points.

General Lyman L. Lemnitzer, CofS, presented to Project Man a carefully developed thesis on the Army's contribution to the Defense Team. The consensus of many at Project Man was that the Chief's presentation made in a crowded and warm theater, was something less than dynamic. Best received of the three military presentations—the other was made by Lt. Gen. Robert Colglazier, Deputy CofS for Logistics—was the report by Lt. Gen. Arthur G. Trudeau, Chief of Research and Development.

As is his frequent practice, General Trudeau abandoned his prepared text and spoke only with notes. He stressed the need for the Army to reduce the lead time in weapons development. That progress is being made in this direction was pointed up with the first public display at Project Man of the Army's new Davy Crockett atomic field piece for use by small battlefield units.

Although the Pershing and Sergeant missiles, Davy Crockett, and a dramatic demonstration of a combined arms force, including organic Army aviation, were major highlights, the basic philosophy behind Project Man (Modern Army Needs) was to point up the task of the individual soldier.

It was fitting that the scores of industrialists and newsmen participating in Project Man, together with representatives from all the Armed Forces and many foreign nations, gave their biggest applause to the intrepid men of Col. John T. Corley's Ranger Department at the Infantry Center.

The point that Project Man sought to make—and made successfully—is that ultimately, the defense of the Nation depends upon the courage, skill, and dedication of individual fighting men, who must be equipped with the finest weapons. It is possible to obtain with the help of American science and industry.

As Project Man came to an end, the Army looked to further gains on Capitol Hill. It could be assured also that the visit of President Eisenhower and Secretary Gates to Ft. Benning, Ga., had been of vital importance to the future of the Army.

New Army Aviation Unit

The Army has authorized the organization of a new unit at Ft. Ord, Calif., the 68th Aviation Company, under Capt. Robert W. Yonts.

Capt. Beach And Crew Of Triton Cited For Triton's Historic Underwater Cruise

President Eisenhower has awarded Capt. Edward L. Beach the Legion of Merit for commanding his nuclear submarine, the USS Triton, on its record breaking, submerged trip around the world.

The Triton also received the Presidential Unit Citation.

The largest and most powerful submarine ever built, the Triton was commissioned in November 1959. It ended its 36,000 mile circumnavigation of the globe 10 May off Rehoboth, Del., after 84 days under the sea.

The Triton's voyage followed approximately the same course as Ferdinand Magellan's expedition in 1519-20, which was the first to circle the globe.

In addition to Captain Beach, the Triton's crew included the following 15 officers. The name of each officer is followed by that of his wife, where appropriate, and home address.

LCdr. Will M. Adams, Jr., Executive Officer, Betty S., 5 Ridge Road, Groton Long Pt., Conn.; Cdr. (MC) James E. Stark, Medical Officer, Cecily S., 22 Chestnut Hill Rd., Groton, Conn.; LCdr Robert D. Fisher (SC), Supply Officer, Rosemary O.,

27 Mameaux Ave., New London, Conn.; LCdr. Robert W. Bulmer, Operations Officer, Joane R., 246 E. Pt. Rd., Groton, Conn.; Lt. Donald G. Fears, Engineering Officer, Arlene B., 41 Starr Hill Rd., Groton, Conn.; Lt. Robert Brodie, III, Communications Officer, Marjory, Baw. Dr., RFD 3, Gales Ferry, Conn.; Lt. Robert P. McDonald, Reactor Control Officer, Patricia L., Barry Drive, Gales Ferry, Conn.; Lt. Tom B. Thamm, Auxiliary Machinery Officer, C. H. Thamm, 671 W. Wash. St. Ext., Bradford, Pa.; Lt. Curtis B. Shellman, Jr., Machinery Division Officer, Patricia C., 15 Wiemes Ct., Waterford, Conn.;

Lt. George J. Troffer, Jr., Electrical Division Officer, Alice J., 360 Tyler Ave., Groton; Lt. George A. Sawyer, Jr., First Lieutenant & Gunnery Officer, Betty A., Terry Drive, Gales Ferry; Lt. Richard A. Harris, Combat Information Center Officer; Lt. Milton R. Rubb, Electronics Officer, Mrs. R., 24 Rockridge Rd., Waterford, Conn.; Lt. James C. Hay, Assistant Auxiliary Machinery Officer, Ruth A., 50 Chestnut Hill Sq., Groton; and Warrant Machinist Phillip B. Kinnie, Jr., Assistant Machinery Division Officer, Gertrude I., 3 Wilcox Ct., Waterford.

General Shoup Cracks Down On Senior EM Who Seek To Avoid O'Seas Duty

General David M. Shoup, Leatherneck Commandant, has established a new policy that requires Marine NCO's selected for promotion to pay-grades E-9 and E-8 to serve on active duty for at least three years after acceptance of appointments.

The new ruling was issued by the CMC in A1Mar 11, effective 4 May.

The General said: "It is my conclusion that the purpose of promotion is to fill bona fide military requirements. I expect officer and enlisted Marines to perform a reasonable tour of service after promotion. It is my further conclusion that orders issued for overseas duty should be executed prior to favorable action on request for transfer to the Fleet Marine Corps Reserve."

The impact of the Order is that top-ranking Marines who refuse to stay active for the required period will not receive certificates of appointment from the Commandant.

In revising the rule for transfer to the Fleet Marine Reserve, the Commandant washed-out a past practice by some senior

Marines. Some, approaching their 20th year of active service, waited until they received orders to a new billet. Often, if they were slated for overseas assignments, they would "decide" it was time to put in for a retirement.

Under the new rule, favorable consideration will not be granted in the future to requests from Marines in grades E-6 through E-9 for transfer to the FMCR when such requests are made on or after the date permanent change-of-station orders to overseas duty are issued, and the effective date of transfer to the FMCR is prior to the expiration of a normal overseas duty tour.

The new three-year policy applies to the 804 Marines chosen last month for promotion to first sergeant and master sergeant, although their appointments, when issued by the Commandant, will be effective 11 April for pay and seniority purposes.

The Order stipulates that exceptions to the restrictions governing shifts to the FMCR will be granted for bona fide hardship cases and when such transfers are clearly in the best interests of the Corps.

Neither of the two new policies applies to Marines with more than 27 years of active military service.

Lt. Warner Wins Kolligian Trophy

1st Lt. Ronald L. Warner has been named winner of the third annual award of the Air Force's Koren Kolligian, Jr. Trophy.

The award is presented each year to an air crewman who most successfully copes with an emergency situation in flight.

Lieutenant Warner was selected for the award for exercising unusual courage, airmanship and judgment in landing a crippled C-119 during an over-water flight between Okinawa and Guam on 4 September 1959. He is assigned to the 6313th Air Base Wing of the 313th Air Division, PACAF, Okinawa.

Thomas Werbe Named Logistics Deputy

THOMAS C. WERBE, Jr., has been named Deputy Assistant Secretary of Defense (Supply and Logistics).

Mr. Werbe, as Deputy to E. Perkins McGuire, Assistant Secretary of Defense for Supply and Logistics, will assist in the fields of procurement, production, small business and maintenance. He is Administrative Vice President of the Lynch Corporation of Anderson, Ind.

The new deputy, a Naval Reserve officer, served in the Pacific during WW II.

Retired Admiral Loses Pay, Comptroller Rules In Favor Of Marine Corps General

A RETIRED Navy rear admiral has been deprived of retired pay for "conspiring" to sell soft drink mixes to the Navy, but the Comptroller General has ruled that it is legal for a retired Marine major general to sell popcorn to personnel at a Marine base.

Adm. Charles H. Gillilan, SC, USN-Ret., was deprived of retired pay and benefits for life after being convicted by a Federal court in New York of conspiring to sell beverage mixes to the Navy supply system.

Admiral Gillilan's retired pay was taken away under the provisions of the Hiss Act (5 U.S.C. 2282). He is reported to be planning to appeal his conviction of conspiring to violate the conflict of interest statutes.

Comptroller General Joseph Campbell

told the Marine Corps that Maj. Gen. Randall M. Victory, USMC-Ret., did not violate any laws in running theater snack bar concessions at Camp Lejeune, N. C., and a popcorn vending concession at the Marine Corps Air Station, Cherry Point.

General Victory's contracts for operation of the concessions, Mr. Campbell said, do not come within the scope of the conflict of interest laws.

Mr. Campbell said the Marine Corps contracts relate entirely to the purchase of concessionaire privileges, not the sale of anything to the Government itself. Mr. Campbell also pointed out that selling things to individual Marine Corps members is not the same as selling things to the Government, and thus does not come within the conflict of interest prohibitions.

Navy Asks Special Duty Flag Changes, Would Eliminate SDO Star Selection Boards

THE Navy has asked Congress for authority to eliminate flag selection boards for special duty officers.

In letters to the House and Senate, Deputy Defense Secretary James H. Douglas said the purpose of the proposal is four-fold:

- to provide improved opportunity to attain the rank of rear admiral for Naval officers designated for special duty;
- to provide flexibility in the assignment of flag officers so designated;
- to add meteorology to the fields in which Naval officers may be designated for special duty; and
- to prohibit the further designation of officers for special duty in the fields of photography, hydrography, and psychology.

Secretary Douglas said, "if the need for a hard core of full time specialists is to be met, means must be provided to assure young officers that in sacrificing their eligibility to command at sea they are not also sacrificing their opportunity for promotion to high rank."

At present, he said, special duty officers have only "meager" opportunity to become flag officers. He noted that only five such officers have been promoted to flag rank in the history of the Navy, and only three currently are on board: one in communications, one in law and one in Naval intelligence.

Although the Navy has been devoted to the selection board system since 1916, he said, the Department "has come to the conclusion that this system cannot profitably be used in promotions to flag grade in the small special duty groups where the authorized number of flag officers is very low and the needs of the Service for flag billets are very limited."

He said, "where these conditions exist, the determination of the need for a flag billet in a specialty should be made first, and then there should be appointed to fill that billet, with the rank of rear admiral while so serving, the captain designated for duty in that specialty who is preeminently qualified to serve in that particular billet."

Secretary Douglas said, "since this would be a matter of finding the right man for the right job at the right time, as in the case of other statutory offices that entitle their incumbents to flag rank while so serving, the appointments should be made in the same way, i.e., by the President, by and with the advice and consent of the Senate."

The proposal, accordingly, would make special duty officers ineligible for promotion to the grade of rear admiral under the Officer Personnel Act and would authorize the President to designate as billets of importance not more than two billets in each of the following fields: communications, law, and Naval intelligence. One billet would be established

for public information and another for meteorology.

The legislation provides for Presidential appointments subject to Senate confirmation for a term of three years. The term could be extended by the President on a year-to-year basis.

Officers appointed to the billets would have the rank, pay and allowances of a rear admiral while so serving and could progress from lower- to upper-half pay.

Secretary Douglas said if the legislation is enacted it will not be used to create additional flag ranks. The number of officers appointed to flag rank in the special duty areas would be offset, he said, by a concurrent reduction in the number of flag billets available to other groups in the Navy.

Army Makes Majors

The Army, in Special Orders No. 94, has advanced 40 officers to temporary major, effective 11 May. They are:

Col. Bernier Named Army Dental Chief

Col. Joseph L. Bernier, DC, USA, has been named by President Eisenhower for two-star rank as chief of the Army Dental Corps.

He will succeed Maj. Gen. James M. Epperly, who retires 30 July.

Colonel Bernier, Chief of the Dental and Oral Pathology Division of the Armed Forces Institute of Pathology, Wash., D. C., for the past 10 years, is the first member of the Army Dental Corps to become a certified oral pathologist.

He entered the Army Dental Corps in 1934, after graduation from the University of Chicago Dental School.

In addition to his duties at AFIP, Colonel Bernier is also Professor of Oral Pathology at Georgetown University, Washington, D. C.

With his wife, Bernice, he resides at 6905 Hillmead Road, Bethesda, Md. The Berniers have two children, Joseph W. and Beverly.

Pershing Makes Third Successful Flight

The third successful firing of the Army's longest range surface-to-surface missile Pershing took place 10 May at the Atlantic Missile Range, Cape Canaveral, Fla.

Earlier firings were held 25 February and 20 April of this year.

The two-stage solid propellant missile is under research and development by The Martin Company at its Orlando, Fla., facility.

As in earlier flights, the latest fired only the first stage, the second stage being weighted to simulate an actual missile. Instrumentation was carried in the nose cone.

The Pershing may be moved rapidly by a specially designed transporter-erector-launcher and fired in a matter of minutes. The entire system is air-transportable.

ROPA Hearings Set

Senate Armed Services Committee hearings on the House-approved bill amending the Reserve Officer Personnel Act have been set for 17-18 May.

The bill was passed by the House last July. It eliminates and corrects certain ROPA deficiencies relating to promotion, precedence, constructive credit, distribution, retention and elimination of Reserve officers.

Norair T-38 Begins Tests At Edwards

A joint task force is evaluating the Norair T-38 supersonic jet trainer at the Air Force Flight Test Center, Edwards AFB, Calif.

The new trainer is the first aircraft developed under the joint task force concept, in which all Air Force commands and civilian contractors involved are represented at the test site.

Director of the T-38 JTF is Lt. Col. J. C. Pedersen of AFFTC. Deputy Director is Lt. Col. A. W. Buck of the Air Training Command. Other task force members are Capt. H. B. Lethbridge of the Air Materiel Command, Mr. L. M. Rothrock of Norair and Mr. E. M. Spears of General Electric.

After completion of tests at Edwards in March 1961, the T-38 will undergo final evaluation at Air Training Command Headquarters, Randolph AFB, Tex.

Army Tests Mohawk

The Grumman Mohawk, fastest airplane scheduled for operational Army use, will begin tests this month at Ft. Rucker, Ala.

The twin engine turbo-prop craft is designed to cruise at 200 knots, with a maximum speed of 300 knots. Its landing speed is approximately 63 mph.

First test at Rucker will be conducted by the Army Aviation Board, headed by Col. Jack Martinelli. Later the plane will be tested by an experimental test unit headed by Capt. George Thayer.

Forty-two Mohawks are being built for the Army by Grumman under a \$21 million contract.

USMC Invites Public To Sunset Parades

The Marine Corps' annual Summer series of Sunset and Evening Parades at the Marine Barracks, Eighth and Eye Streets, S. E., Washington, D. C., starts 13 May at 5 p.m.

The Sunset Parades will be conducted each Friday until 27 May. Thereafter, Evening Parades will be held at 9 p.m. until 7 October.

The Sunset schedule resumes each Friday at 4 p.m. and continues until 4 November.

Reservations are not required for groups of less than 10 persons. Admission to the Parade Grounds begins one hour prior to the ceremony.

Col. Crouch To Citadel

General Mark Clark, USA-Ret., president of The Citadel, has announced that Col. Henry L. Crouch, Jr., USAF, has been selected as the military college's new Professor of Air Science.

Colonel Crouch replaces Col. John D. Gorham, Jr., USAF, who has been Professor of Air Science at The Citadel since July 1956. Colonel Gorham has been selected to attend the National War College this summer at Fort McNair in Washington, D. C. Colonel Crouch has been Commander of the 81st Tactical Fighter Wing at RAF Station, Bentwaters, England, since July 1957.

Pentagon AF Officers Write Book On Homes

Two Air Force officers assigned to the Pentagon have published a book designed as a guide for prospective home buyers.

The authors are Col. R. R. Smith, 2314 Chester Drive, Annandale, Va., and Maj. E. A. Michalski, 1410 Alice Court, Falls Church, Va.

Cost of the book is \$3. It is available from The Home Buyer's Guide, PO Box 329, Dept. E, Annandale, Va.

JOURNAL CLASSIFIED

For only 14 cents a word (\$1.40) minimum, you can reach a world-wide audience through the classified advertising columns of the "Spokesman of the Services."

The Journal is the only weekly publication which covers all the U. S. Armed Forces. This assures top caliber impact for your message.

Deadline for insertions is 5 p.m. on Tuesday. Payment must accompany insertions. Write: Army Navy Air Force Journal, 1710 Connecticut Avenue, Washington, 9 D. C., in the Capital area, phone: HObart 2-1220 and ask for Mrs. Howard.

NEW HOMES—More to offer in close in new homes than any other Realtor, Rivercrest, Forest Glen and many individual locations. Re-Sale and custom building. **FLORANCE REALTY COMPANY, INC.**, 2317 Wilson Blvd., Arlington, Va. Jackson 4-6000 or Jackson 4-2828.

RENTALS AND SALES—ARLINGTON AND FAIRFAX COUNTY, Va.—Across the Potomac from Washington. For over 17 years we have served the Services with the finest of sales and rentals in Northern Virginia. Write us for free map of this area. **GEORGE MASON GREEN CO.**, Realtors, 2039 Wilson Blvd., Arlington, Va. Jackson 4-1400.

WASHINGTON-VIRGINIA Service to the Service by Service people. Specialists in sales, rentals, financing. Main office 1 block from Presidential Gardens furnished apts. Write for free bulletin covering Alexandria, Arlington, Fairfax County, Northern Virginia. Members of Multiple Listing. Write or phone **HICKS REALTY CO., Inc.**, Realtors. Open 9 to 9. KING 9-1600. OT 4-6040. 3706 Mt. Vernon Ave., Alexandria, Va. 2203 S. Arlington Ridge Rd., Arlington, Va.

WASHINGTON BOUND? Let our experience service personnel locate your home in Virginia where taxes are lower and schools are better. Temporary rentals with everything furnished by the week or month, while we help you find your permanent home. **HOLLY REALTY**, 5183 Lee Highway, Arlington, Virginia. KE 8-5350. Across from Tops Drive-In.

Three Water Front Bargains. The owners have instructed us to sell these properties at once and will sacrifice. Write for details. **G. B. Lorraine (Broker)**, Richmond Federal Bldg., Richmond, Va.

Washington Duty? If you are anticipating a Washington tour write for our free brochures and maps describing and locating our new homes in nearby Virginia. Split levels, ramblers and bi-level homes from \$19,925 to \$38,000 are available in the Town of Fairfax and the McLean-Langley area. Some are available with GI financing. Multiple Listing Service with a selection of over 500 resale homes is also available through our office. Write or call **Luria Bros., Realtors**, 2048 Wilson Blvd., Arlington, Va. JA 7-8500.

MERLE NELSON the firm with interest in and understanding of service families housing requirements. Staffed by efficient and experienced sales people. Free sales and rental brochures and area maps. **MERLE NELSON REALTY**, 5150 Wilson Blvd., Arlington, Jackson 4-5866.

DESTINATION PENTAGON? Enjoy a fine home in Northern Virginia within 20 minutes of your work. Staffed by courteous professionals, we render the "One Stop" complete Real Estate service. **RENTING WITH OPTION TO BUY AND THE SALE OF 4 AND 5 BEDROOM HOMES OUR SPECIALTY.** Write or call **WALTER R. REYNOLDS CO., INC.**, 4701 Old Dominion Drive, Arlington, Virginia, Jackson 7-6525.

MODERN FRAME HOME in pleasant rented community. Living room with fireplace, dining room, kitchen, 3 bedrooms, bath, screened porch with fireplace, car port, 1½ baths, shade trees, 250 ft. water front with pleasing view, \$15,750. **Capt. H. C. Robinson, USN (Ret.)**, Broker, White Stone, Va.

ROUTH ROBBINS—serving the military in the Washington area for ten years — says send for our **FREE MILITARY RENTAL AND SALES BULLETIN**. A complete discussion of the pros and cons of renting versus buying. A complete rental department to serve you. New and resale homes in the areas of Alexandria, Arlington and Fairfax. We handle all of the leading subdivisions and will forward brochures upon request. Down payments from \$500.00. G. I. Service to the service from a service organization. Write or phone **ROUTH ROBBINS REAL ESTATE CORPORATION**, North Washington at Madison Streets, Alexandria, Virginia, King 8-4000.

Virginia (Cont.)

SHANNON & LUCHS COMPANY, REALTORS in the greater Washington area have rendered service to military and other government personnel since 1906. With four offices to serve you our Arlington office dealing exclusively in Northern Virginia property is best situated to assist the Pentagon bound personnel. Let our experienced and professional sales staff help you with your housing problem. Call, write or come in to see us at 2055 Wilson Blvd., Arlington, Virginia, Telephone JA 5-6800.

MILITARY RENTAL AND SALES—Let **TATUM PROPERTIES** assist you in buying, selling or renting a home in Northern Virginia. A letter to our office indicating your essential requirements and preferences will bring a prompt and informative reply. Our personal attention to your individual needs will warrant your satisfaction. **TATUM PROPERTIES, INC.**, 903 Leesburg Pike, Falls Church, Virginia. Or call **MAJOR TATUM (Ret.)**, Jefferson 4-8810, Bailey's Crossroads.

TOWN OR COUNTRY? Best Virginia locations! City or country minded. "Town & Country" has the finest coverage of available houses in beautiful Northern Virginia. **FHA In-Service, GI Conventional Financing.** Assisting service personnel is our specialty. ¼ block from Presidential Gardens. Upon your arrival, our office car is at your disposal. Write, wire or call Temple 6-1415 Collect! **TOWN & COUNTRY REALTY**, 3806 Mt. Vernon Avenue, Alexandria, Virginia, Temple 6-1415.

AUTOMOBILES

NEW CHRYSLERS PLYMOUTHs and VALIANTS at lowest delivered price. No State Sales Tax. Full warranty and service. Authorized dealer. Free information. **Pearson, Hurffville, N. J.**

FOR SALE

THE IDEAL FATHER'S DAY GIFT is a set of Balfour quality Military insignia. Write for Free pamphlet. **L. G. Balfour Company**, Attleboro, Massachusetts.

MILITARY CAPS

MORRY LUXENBERG offers FREE "CAP-TOTER" (handsome case for carrying two Caps plus accessories) with purchase of Army Officers' Green Fur Felt Cap \$19.50. Field Grade \$29.95. (Write for price list other items.) **Morrry Luxenberg Co.**, 45 East 30th St., New York City 16.

NEW FURNITURE

Your best buy in the Washington, D. C. area! In better grade new furniture. Save at least 30% or more. Shop them all—but compare our prices before you buy. **BROTHERS FURNITURE COMPANY**, Bailey's Cross Roads, Alexandria, Virginia, Jefferson 2-6900.

RIBBONS AND MEDALS

SEW-ON RIBBONS or Clutchback. Miniature Medals. Order yours from **DAVID SANDO**, P. O. BOX 6293, Washington 15, D. C.

Rio Grande Valley MOWW Chapter Organized

The Founding Members of the Rio Grande Valley Chapter, Military Order of the World Wars, met at an organizational luncheon recently at the Casa de Palmas Hotel, McAllen, Tex., Col. Robert E. Joseph, USA-Ret., of San Antonio, the Order's Commander of Region VIII, comprising Texas and the Canal Zone, reports.

The Founding Members of the Rio Grande Valley Chapter are Maj. Leroy G. Lewin of McAllen, Commander-Elect; Maj. Charles D. Clark, McAllen, Vice Commander-Elect; Cdr. Harrell Jones, McAllen, Adjutant-Treasurer-Elect; Capt. G. W. "Wes" Manning, McAllen, Public Relations Officer-Elect; Col. Richard L. Alexander of Donna; Lt. Col. Thomas J. Phillips of San Benito; LCdr. Russell Rentfro of Brownsville; Maj. Leonard F. Spratt of Mission; Lt. Col. Robert L. Lyon of Edinburg; Capt. William W. Holmes of Mercedes; and Col. Stephen Boon, Jr., Capt. David Farb, Maj. W. M. Goldsberry, Maj. Romeo A. Hancock, Lt. Col. John F. Lubben, Jr., Col. Floyd E. Martin, Col. William T. Merry, and Maj. Alex Sidelnik, all of McAllen.

Presentation of the Chapter's Charter and Installation of Chapter Officers will feature a dinner meeting 23 May at the Casa de Palmas Hotel, McAllen, Tex.

U. S. COAST GUARD

Secretary of the Treasury—Robert B. Anderson
Commandant—Vice Adm. Alfred C. Richmond

THREE Regular Coast Guard officers have been advanced to the next higher temporary ranks, effective 1 May.

To Commander—David L. Davies, jr.
To Lieutenant Commander—Robert E. Walsh.

To Lieutenant—James Weiskittel.

Win Warrants

The Secretary of the Treasury has promoted four chief petty officers to warrant rank, pay-grade W-1, effective from 1 May.

Their names and the categories to which they are assigned are:

Radio Electrician—Elwood T. Elder and Patrick J. Flynn, jr.

Machinist—James N. Hodges.

Supply Clerk—Dewey Sutton.

Retirements

Coast Guard Headquarters retired eight officers on 1 May.

The total includes two commanders, one ensign, four chief warrants and one warrant.

Their names and the reasons they ended their careers are shown below:

30 Years Service—Cdr. James W. Booze.

20 Years Service—Ens. William H. Reed; CWO-2's Frank P. Huotte and Warren O. Nilsson; and WO-1 William T. King.

Physical Disability—Cdr. Malcolm C. McGuire; CWO-3 Matthew P. Folan; and, CWO-2 Edmond E. Hainstock.

Lt. Charles W. Fead resigned from the Service.

Lt. Howard M. Dunn was transferred from the Temporary to the Permanent Retired List.

Assignment Changes

CAPTAIN

Wayne, Albert F., Base, Galveston (CO), to HQ (Ch. CHS Div.).

COMMANDER

Atkinson, Arthur A., jr., CGD11 (Ch. oan Sect.), to PONTCHARTRAIN (CO).

Bakel, Sherman T., HQ (Asst. Ch. PR Div.), to RTC, Yorktown (XO).

Bodie, George J., CGD8 (mmt, to Ch. mmt Sect.).

Bolton, Walter C., TANEY (XO), to DEXTER (CO)—Cancelled.

Burneson, Raphael C., MIO, Toledo, to MIO, Cleve.

Crock, Elmer A., CGAS, St. Petersburg (CO-DIFOT), to CGAD, Argentina (CO-DIFOT).

Cumberland, Wesley J., MIO, Sfran, to MIO, Chicago.

Cunningham, Robert P., CGAS, Sfran (XO-DIFOT), to TANEY (XO) Cancelled.

CGAS, Sfran (XO-DIFOT) to GRESHAM (XO).

Davison, Lewis R., HQ (OFU), to ANDROS-COGGIN (CO).

Douglas, David H., MIO, Chicago (Designated SIM).

Frazer, Harry F., MIO, Balt, to MIO, Jacksonville (OCMI).

Heck, Stephen B., MIO, Port Arthur, to MIO, Toledo (SIM).

Houghtaling, Edward H., PONTCHARTRAIN (CO), to COMEASTAREA (Asst. Oper. Off).

Langlois, Charles H., MIO, Port Arthur, to MIO, St. Louis (SIM).

Lowcock, Richard A., Base, Alameda (XO), to COTP, Los Angeles-Long Beach (XO).

Morrison, William L., YOCONA (CO), to DEXTER (CO).

Schmitz, Frank C., Base, Sand Island (CO), to CGD14 (Dir. of Res & Aux).

Stedman, George W., jr., COURIER (CO), to COTP, Boston (CO).

Thompson, Jesse O., MIO, Jacksonville (OCMI), to MIO, Phila (OCMI).

Worrel, Edward, jr., MIO, CorpusC (SIM), to MIO, Balt.

LIEUTENANT COMMANDER

Adamson, Robert, HQ (OAV-DIFOT), to PONTCHARTRAIN (Prep Gen Serv Duty-DIFOT).

Austin, John M., MIO, Seattle, to CGD9 (Asst Ch mms Div).

Britt, Richard H., HALF MOON (EO), to CGD13 (ecv).

Brittan, Francis L., PONTCHARTRAIN (EO), to HQ (MMT).

Brummeler, Edwin J., CGD12 (Dir of Aux), to CGD17 (Ch. Read Sect).

Ferenbacher, John J., CGAS, Port Angeles (Aero Engr-Difot), to AR&SB, Elizabeth City (Aero Engr-Difot).

Haley, Charles A., CGD12 (oan), to CGD11 (Ch oan Sect).

Hopper, Louis, jr., MATAGORDA (Prep Gen Serv Duty-DIFOT), to BERING STRAIT (Prep Gen Serv Duty-DIFOT).

Richardson, Edward A., CGD14 (Dir of Aux), to SALVIA (CO).

Smith, Harrison B., WINONA (XO), to YARD (Nav. Engr Duty).

Sohm, George W., GRESHAM (XO), to Base, Alameda (Admin).

LIEUTENANT

Bothell, Lee W., CGD12 (fs), to YARD (fs).

Burns, Richard L., CGAS, SDiego (DIFOT), to CGAD, Annette Island (DIFOT).

Donovan, Joseph M., TraSta, Groton (fs), to CGD12 (fs).

Draper, Donald M., CGD12 (p), to RECEN, Cape May (Duty).

Forslund, Kenneth W., LTS, Hawaii (CO), to CASTLE ROCK (EO).

Madson, Roger L., Lake Carriers Assoc (DUINS), to MIO, Cleve.

McIntosh, David F., jr., HQ (CL), to CGD17 (Legal Officer).

Nixon, Andrew F., California Co. (DUINS), to MIO, CorpusC (SIM).

Phillips, Marshall K., CGAS, Miami (Difot), to CGAD, Argentina (Difot).

Roberts, Arthur P., PONTCHARTRAIN (Designated EO).

Schuerch, Robert jr., ARIADNE (XO), to CGD14 (Ch. Supply Sect).

Wilks, Bobby C., CGAS, Sfran (Difot), to CGAD, Sangley Point (Difot).

Wise, Richard B., TAMAROA, to CGD3 (RCC).

LIEUTENANT (Jr)

Coppock, Duane A., NAS, CorpusC (Adv Flt Trng), to CGAD, Kodiak (Difot).

INDUSTRY IN DEFENSE

VOUGHT CRUSADER ADDS MISSILE PUNCH

THE Chance Vought F8U-2N Crusader, all-weather version of the world's fastest operational Navy fighter, will pack an increased Sidewinder missile sting. Vice President and General Manager W. P. Thayer of the company's Aeronautics Division said the Navy has approved use of the missiles on the near-Mach 2 F8U-2N—double the normal Crusader complement of the powerful heat-seeking air-to-air missiles capable of destroying the largest bomber.

The increase in Sidewinder striking power will be made possible by use of a relatively inexpensive Y-shaped pylon or bracket which will hold two of the missiles instead of one, Mr. Thayer said. As in the case of earlier model Crusaders, one pylon will be mounted on each side of the fuselage behind the cockpit area.

The new double pylon also will be readily interchangeable with the earlier single type on the F8U-2N, selection depending on the mission of the all-weather fighter.

The F8U-2N is scheduled for delivery to the Fleet later this year.

JOINS HARRIS, UPHAM

Col. Frank T. Folk, USA-Ret., formerly Deputy CofS for Administration and Logistics at the Army Air Defense Command, Colorado Springs, will be affiliated with Harris, Upham & Company as a representative in that city.

Colonel and Mrs. Folk reside at 2501 Constellation Drive with their two children, Sara, 16, and Joel, 13. He is a USMA '31 graduate, who spent 61 months in the Pacific during WWII.

Flight Test Center Makes Top Award

Award of a more than \$2 million renewal contract to Dow Chemical Co., Midland, Mich., for a solid fuel missile propellant study is disclosed by Brig. Gen. John W. Carpenter, III, Air Force Flight Test Center Commander at Edwards AFB, Calif.

The contract, the center's biggest for fiscal 1960, is an Advanced Research Projects Agency project monitored by the Air Force.

AEROJET AZUSA V.P.

William L. Rogers, 39, has been named Vice President, Azusa, Calif., Plant of the Aerojet-General Corporation.

For the past two years Vice President Azusa Operations, he now has responsibility for the entire Azusa Plant, including all service functions as well as operating activities there.

The Aerojet Systems Division, Anti-Submarine Warfare Division, Avionics Division, Chemical Division, Power/Equipment Division, Space Technology Division, and the Structural Materials Division are located at the Azusa Plant.

Mr. Rogers resides with his wife, Sandra, and daughter, Alexandra, at 1921 Braeburn Rd., Altadena, Calif.

Martin Receives Army Contract To Build Missile Electronic System

The Army awarded a \$35 million contract to the Martin Company at Orlando, Fla., for an undisclosed number of new electronic systems patterned after its Missile Master.

Missile Master now coordinates large Nike defenses such as those in the Washington-Baltimore, Seattle and Boston areas, and is being installed in New York, Philadelphia, Detroit, Pittsburgh, Chicago, Buffalo-Niagara, and Los Angeles.

The new fire coordination system will be assigned the same mission as Missile Master, to furnish target information to, and coordinate target engagement by, Nike batteries. This system will be used with smaller defenses, however.

Principal advantages of the new air defense system are that each system can be tailored to the size of the local defense, it is economical, transportable, and compact.

The new system, like Missile Master, will be tied into other control systems, thus integrating local Army defenses with the entire North American air defense complex.

Bell PR Wins AWA Honor; Name Others

AWA NEWS CONFERENCE
LOS ANGELES, CALIF.

JAMES C. Fuller, of the Bell Helicopter Corporation, Ft. Worth, Tex., and Mrs. Peggy G. Hereford, of the Los Angeles Department of Airports, were announced here as winners of the Aviation Writers Association awards for "outstanding aviation public relations."

George Carroll, aviation editor of the New York Journal-American and a Air Force reserve Lieutenant Colonel, won the James J. Strebis Memorial trophy in the category of aviation news writing, and Allan C. Fisher, Jr., of the National Geographic Magazine, for aviation writing outside the newspaper field.

M. L. McLaughlin of the General Electric Company, Dallas, was given the Harry Lever Award for outstanding services to the Association.

Ryan Completes Task For NASA

Components for an ultra-high speed re-entry vehicle have been completed by Aerolab Development Company of Pasadena, subsidiary of Ryan Aeronautical Company, San Diego, and delivered to the National Aeronautics and Space Administration.

Items built by the Ryan subsidiary include a 5-inch diameter spherical rocket motor which will assist in atmosphere re-entry studies at velocities up to 24,000 feet per second.

The technique involves use of a six-stage rocket. The first three stages will push the vehicle to a 200 mile apogee in 300 seconds. The last three stages, firing downward, will cause re-entry into the atmosphere at high speeds.

The studies are devoted to the physics of re-entry in connection with ballistic missile warhead detection, but can also be applied to a study of the re-entry of space vehicles from interplanetary flights.

Millions For New Missiles

The Armed Forces, nearing the end of a fiscal year, are announcing millions of dollars in new contract awards to industry for missile research and development and procurement. Here are some highlights:

REDEYE:—Convair Division of General Dynamics Corporation at Pomona, Calif., gets \$6.3 million for continued development of the Army's shoulder-fired, air defense missile.

JUPITER:—The Army has awarded Chrysler Corporation of Detroit another \$3.4 million for work on this IRBM, operational control of which is in the hands of the Air Force.

EAGLE:—The Garrett Corporation's AResearch Manufacturing Division of Los Angeles has been selected by Bendix Pacific Division, Bendix Aviation, Inc., to join a team of manufacturers developing the Navy's air-to-air Eagle missile. AResearch will supply a highly compact, lightweight auxiliary power turbine driven unit which supplies both hydraulic and electric power for operation of surface controls, navigational systems and others.

LACROSSE:—The Army has awarded a \$1.5 million contract to the Martin Company's Orlando, Fla., facility for test equipment for use in the Lacrosse guided missile program. Work on the test equipment covered in today's contract will be carried out at Martin-Orlando for the Army Rocket and Guided Missile Agency, Huntsville, Ala.

MINUTEMAN:—Aerojet-General Corporation has reported its "most significant accomplishment to date" in the development of the second-stage solid rocket engine for the Air Force's Minuteman ICBM—successful full duration test firings of full-scale, flight-weight second-stage engines. Program Manager David F. Sprenger said that, "Many state-of-the-art advances had been achieved in the development of solid rocket engines having the thrust and the engineering refinements required for the Minuteman second-stage."

Westinghouse Builds Long Range Communications

The Navy Bureau of Ships has awarded a contract for more than \$12 million for long range shipboard radio communications equipment to Westinghouse Electric Corporation's Electronics Division in Baltimore.

"Simplicity of design and a high degree of stability for shipboard service," said Division General Manager R. E. Kirby, "have made these systems an optimum choice for fleet and submarine installation. One of them, the AN/WRT-2, was specifically designed for submarine service and is the first shipboard transmitter of its capabilities sufficiently compact to be placed aboard intact through a submarine hatch."

The AN/WRT-1 system provides radio telephone and teletype service, operating at frequencies of from .3 to 1.5 megacycles. It is an amplitude modulated, frequency shift keying, continuous wave transmitter.

The AN/WRT-2 operates at frequencies from 2 to 30 megacycles. It is an independent sideband transmitter, also amplitude modulated, frequency shift keying and continuous wave.

This is the second May production contract for this equipment placed with Westinghouse by the Navy. The first amounted to \$11 million.

MINUTEMAN ACTION

AWA NEWS CONFERENCE
LOS ANGELES, CALIF.

Not only has the Minuteman ICBM operational date been pushed ahead, but research and development has progressed to a technical point "where all previously known problems have been resolved."

So Maj. Gen. O. J. Ritland, Commander of the Air Force Ballistic Missile Division, told the Aviation Writers Association here.

"We have determined," he said, "the proper silo dimensions demonstrated first-stage ignition and burning characteristics, and test-proved the flight-weight casing. We are now proceeding to the full flight test program at Cape Canaveral, where the first launching is scheduled for late this year."

Together with the Boeing Airplane Company, the Air Force has conducted a total of more than 1,500 separate tests before proceeding to the silo tests at Edwards AFB, he said, adding that "this is still far fewer than the number of such tests we had expected we might have to run."

POLARIS FUTURE

AWA NEWS CONFERENCE
LOS ANGELES, CALIF.

The Polaris missile should remain a prime deterrent system for many years to come, RADM. Leonidas D. Coates, Deputy Chief of Naval Operations (Development) told the Aviation Writers Association here.

"We expect its range to increase from 1,200 to 1,500 miles by 1962," Admiral Coates reported. "Knowing the improvements we can expect in propellants, warhead design, and miniaturization of components, an increase of 2,500 miles is not unrealistic to predict."

"Its accuracy is good and we expect it to be better."

"As our knowledge and techniques in atomic physics advance yield per missile will increase."

"As the system increases in accuracy, fire power and range, the ships will have even more freedom of operation and become more difficult to detect."

NASA Will Buy Agena-B Vehicles

The National Aeronautics and Space Administration will buy 16 Agena-B launch vehicles from Lockheed Aircraft Corporation for \$50 million to be used with other missiles for deep space and orbital missions.

The Agena-B will be slightly longer and have other modifications from the original vehicle developed by the Air Force for launching polar-orbiting Discoverer satellites. The Air Force plans to use still another version of the Agena for other of its military satellite programs.

NASA will use the Agena-B as a second stage atop the Air Force developed Thor and Atlas. The Agena-B will be able to restart in space and will also carry a guidance unit.

Atlas and Agena-B combinations will be able to put spacecraft weighing more than 5,000 pounds in a 300-mile Earth orbit or power 800 pound spacecraft on deep space missions. The two-stage vehicle will be used for lunar investigations, with the first launch expected to take place by mid-1961.

Thor-Agena-B will be used primarily for Earth orbital missions, capable of boosting payloads weighing up to 1,500 pounds. Beginning in late 1961, the combination will boost a number of Earth satellites, including Nimbus, a family of meteorological satellites set to follow the present Tiros series.

The liquid fueled Agena-B measures more than 25 feet in length, five feet in diameter. Its engine will develop 15,000 pounds thrust.

Medical Air Evac Cuts Strand Military Patients

From first page—installations within the ZI are being forced to remain for periods up to two weeks at such bases as McGuire AFB, N. J., Travis AFB, Calif., Brookley AFB, Ala., and Brooks AFB, Tex., because of the reduction in the aeromedical evacuation organization.

Most serious lags exist at Brooks and Brookley Air Force Bases and, which have a large patient backlog from military installations in their areas.

Although the Air Force operates the Aeromedical Evacuation system for all the Services, the ZI reductions were imposed unilaterally.

Actions such as the AirEvac cut were major reasons for the issuance by the Secretary of Defense of a new order (THE JOURNAL 9 April which forbids any Service from reducing activities which affect another service without DoD approval.

Efforts are now being made to alleviate the impact of the Air Force cuts. It is understood that Secretary of the Air Force Dudley C. Sharp and General Thomas D. White, CofS, are giving this matter their personal attention.

As if stepping into the breach created by the threatened curtailment of the AirEvac system, the Army has issued a

revised medical Service regulation which states: "Maximum utilization will be made of aircraft for emergency medical evacuation."

The Army says that Army aeromedical evacuation "will supplement, but not compete with the medical evacuation presently provided by the Military Air Transport Service."

The Navy is also known to be willing to "supplement" the AirEvac operations of MATS by running its own hospital planes for Navy personnel.

Present Air Force plans call for the elimination of the domestic AirEvac system by 1963.

Adm. Pfingstag Receives Air Force AMC Medal

ADM. Carl J. Pfingstag, Bureau of Naval Weapons General Representative at Wright-Patterson AFB, Ohio, since July, 1958, was awarded the Air Force Legion of Merit by General S. E. Anderson, AMC Commander, prior to his recent retirement.

Col. Arthur A. Brackett will become Assistant Executive Director for Air of the Reserve Officers Association upon his retirement from the Air Force in a few weeks. He presently is Commander of the Air Reserve Center, Sacramento, Calif. During the last session of Congress, Colonel Brackett was Department of Defense action officer on the Reserve Officer Personnel Act Omnibus Amendments. He is considered an authority not only on ROPA, but on other current Reserve legislation, as well as policies and programs.

Col. Glenn G. Dickenson, USA-Ret., has joined the law firm of Congdon, Holley & Smith, Southern Finance Building, Augusta, Ga.

Col. Russell D. Barros, USA-Ret., Commanding Officer of the First Army Support Group at Governors Island, N. Y., plans to live at Louisa, Va., near Charlottesville.

Col. Milton R. Blum, USA-Ret., has become associated as a Registered Representative with the Miami Beach office of Francis I. duPont & Co., security and commodity brokerage firm.

Col. Clarence H. Lewis, USAF-Ret., received the Legion of Merit before his recent retirement at ARDC Headquarters, Andrews AFB, Md., where he specialized in communications, electronics and electronic countermeasures. He is married to the former Dorothy Carnes of Sesser, Ill.

Col. Norman P. Barnes ended 20 years of military service at Ft. Lewis, Wash. on 30 April.

Colonel Barnes has served as Deputy Brigade commander, Deputy C of S of Exercise Dry Hills and commander of Post Special Troops, at Ft. Lewis. He plans to return to Oregon State, and study civil engineering.

Colonel Barnes and his wife, Hazel, and their two children will make their home in West Linn, Oregon.

1st Lt. Col. Lewis H. Kirk, Jr., USA-Ret., formerly liaison officer from the National Guard to the Army Air Defense Command at Colorado Springs, will reside temporarily in that city at 1427 Bellaire Drive with his wife and their son, Lewis H., III, 14.

1st Lt. Col. Robert F. Frey, Reserve Component Coordinating Chief, Ft. Carson, Colo., ended his Army career 30 April, after 20 years of service. He will remain at the mountain post as civilian manager of the new Ft. Carson golf course.

M/Sgt. Lyle L. Glendenning, USA-Ret., will live at 4259 Cherokee Avenue, San Diego, following retirement at XV Army Corps Headquarters, Presidio of San Francisco. Also retired at XV Army Corps was M/Sgt. Stanley J. Dybus, 157 Violet Way, Pleasant Hill, Calif.

Bougainville: March, 1944. This dramatic photograph, generally considered one of the most famous to come out of World War II, was made during the jungle fighting on Bougainville. Troops of the 37th Division supported by light tanks wipe out the last pockets of Japanese resistance.

...in the finest tradition of service

What the enemy did at Pearl Harbor, American fighting men avenged in the far-away jungles of the Pacific islands. Through ingenuity, skill and courage that confounded the foe, they first conquered the jungle and then the enemy. The Japanese-held islands of the Pacific were won by American servicemen steadfast in their duty and the fight for freedom.

Duty is the first principle of the American serviceman. Our founders, who were servicemen, carried this principle of duty into the field of financing for servicemen. Today Federal Services is still staffed to a great extent by former servicemen, and is still unswervingly guided by the principle of duty to those who serve the nation.

Railroads Will Join SAC For Minuteman Missile Mobility Tests Under Col. Cloyd

Col. Virgil M. Cloyd, Jr., will head a SAC task force which will conduct a series of six tests to study the use of civilian rail facilities for trains carrying the Minuteman ICBM.

The tests, to be conducted from 20 June to November in the midwestern and far western states, will begin from Hill AFB, Ogden, Utah.

A test train will move over rail networks in the Ogden area for about seven days during the first trip.

Lt. Gen. Archie J. Old, Jr., Commander, announcing the test program, said SAC's Fiftieth Air Force, will provide the majority of military personnel to man the test train.

The program will be a test of mobility, control and communications operations, not a missile test. No missile hardware will be carried on the train during the early tests.

General Old noted that a large number of missile trains, constantly moving over the nation's railway systems and ready to launch their nuclear weapons on short notice, "would make it impossible for an enemy to pinpoint the location of a large share of SAC's retaliatory force."

Under SAC's present plans, the missile train fleet would be able to pull into empty sidings throughout the country and launch their missiles within a few minutes. Trajectory computations would be determined in advance for launches from these sidings to strategic targets in an enemy's heartland.

The first three tests during the program will originate from Hill and move over existing rail lines in the far western portion of the country. The last three test trips will start from Des Moines, Iowa, and utilize tracks in the Midwest.

The test train will consist of approximately 14 cars, including a Command and Control Car with single sideband radio and UHF equipment linking the train commander with Hill and the SAC Command Post at Offutt AFB, Nebraska. Other cars will provide support for train personnel and storage space for fuel and supplies.

Heading a special SAC task force activated at Hill to exercise direct control over the test program is Colonel Cloyd, former Director of Operations for SAC's 1st Missile Division at Vandenberg AFB, Calif.

The task force will order some of the movements during the program. Others will be under the direction of SAC or the train commander. Each trip will last from 7-14 days with several days' interval between trips to permit thorough analysis of the different tactics under study.

Tactics to be tried during the test program include random movement between sidings, scheduled in advance of the trip, and a tactic calling for the train to be moved to specific sidings over the best available trackage under a time limit.

The military train crew will consist of about 21 men. Also aboard will be observers from the Air Force Ballistic Missile Division, Air Materiel Command, and various Minuteman contractors. Railroad representatives and crewmen will make each trip.

Air Force Ballistic Missile Division will serve as test director and control all technical and scientific activities. SAC is the test operator and will be responsible for all movement and communications operations.

Air Materiel Command will furnish all supplies and other support needed for the six-month test program through Ogden Air Materiel Area at Hill.

The Association of American Railroads and its member organizations will furnish locomotives and cabooses and civilian crews to operate the train. The AAR also will serve as a coordinating agency between the Air Force and civil rail systems.

Other cars on the train will be furnished by the Army Transportation Corps from existing rolling stock owned by the Department of Defense and in war reserve storage at the Ogden General Depot.

Army And AEC Work On Nuclear Plant

The Army and the Atomic Energy Commission jointly are developing a mobile gas-cooled nuclear power plant, it was reported last week to the 1960 Nuclear Congress in New York City, by Melvin A. Rosen, Chief of the Advanced Systems Projects Branch (Division of the Reactor Development, AEC) and Capt. George A. Bicher, USA.

A prototype plant, the ML-1, is scheduled for operation at the AEC's National Reactor Testing Station, Idaho, next year. Army Engineers and Atomic Energy Commission scientists hope to have a reactor with the mobility of a trailer-mounted diesel electric unit that does not need a continuous supply of cooling or plant make-up water. This plant is expected to supply the power and heat for field operations or small installations. It would be invaluable in civilian disaster areas where power and heat are not readily available.

(A detailed report on the Army-AEC Nuclear Power Plant program was published in THE JOURNAL issue of 2 April in an exclusive article by Col. Donald G. Williams, Special Assistant for Nuclear Power in the Office of the Army Chief of Engineers).

Close Bangor Marine Barracks

The Marine Barracks at the Naval Ammunition Depot, Bangor, Bremerton, Wash., will be deactivated 30 June and two officers and about 42 enlisted Marines will be reassigned.

The deactivation does not involve the Marine Barracks, Naval Base, Bremerton.

Which way is down

in

Space?

GUIDANCE IN SPACE for manned and unmanned vehicles is one of the most challenging projects underway at Ryan Electronics today. Through advanced research and development, Ryan Electronics is solving the problems of missile and space guidance systems.

Some of the areas being explored include rendezvous terminal guidance, anti-satellite guidance, space vehicle landing aids, satellite communications, and mid-course guidance.

Ryan Electronics is also studying applications of

continuous-wave doppler techniques to the terminal phases of space missions.

Ryan Electronics is the pioneer and recognized leader in continuous-wave doppler navigation systems—the most advanced, proved means of aerial navigation yet developed for modern flight. Automatic Ryan navigators, in wide use throughout the world, guide all types of aircraft—ranging from helicopters and slow flying reconnaissance aircraft to high altitude supersonic jets.

Now, through a major research and development program, Ryan is working to provide the best guidance for America's ventures in Space tomorrow.
